### CONVENT HEAD WID WITNESS OF PERSECUTION

### Mexican Raid Told at House Hearing.

I told the Mexicans my government would hear from me and that they would hear from my government; that was an American citizen's duty.

MOTHER SUPERIOR MARGARET SEMPLE, AGED 70.

(The house of representatives committee on foreign affairs yesterday.)

BY JAMES O'DONNELL BENNETT.  
(Chicago Tribune Press Service.)

Washington, D. C., March 30.—[Special.]—Mrs. Margaret Semple, a Roman Catholic mother superior, little and gentle and venerable, today told the house of representatives committee on foreign affairs that she could talk straight and stronger to the American government than her ambassador could.

Ambassador Sheffield acknowledged as much.

"I hope, mother," said he to the little American teacher, who four times in the last four years has been harried from home and home and convent by armed Mexican soldiers, policemen and bandits, "I hope you will speak freely."

Ordered to Quit Mexico.

He said that when Mother Semple, then 33, had, on Feb. 11 last, been ordered by five policemen, sent by the Mexican minister of the interior, to leave her home and get out of Mexico within twelve hours.

After the venerable lady had quoted the ambassador's hope that she "speak freely," she demurely added:

"I think I could speak more freely than he could. In any case he told me to speak loud and long."

"And did you, mother?" asked Representative Morton D. Hull (Rep., Ill.).

"Well," replied the witness, "I did speak very long—nor very loud. I just told the Mexicans that my government would hear from me and that they would hear from my government; that I was an American citizen."

Sent Word to Embassy.

The committee and the score of Roman Catholic witnesses crowding the room burst into spontaneous applause which Representative Stephen O. Porter (Rep., Pa.), chairman of this important committee, did not suppress.

"Then what happened?" the witness was asked.

"I sent word to our embassy, and a message came back that I should tell the gentlemen to retire, which they did reluctantly. I heard one of the officers say in an aside, 'I believe they'll get what they want.' Then they withdrew, but returned and insisted on hurrying us out."

"Were you discourteously treated?"

The witness, very simply:

"No, I think there was something about my manner that cowed them."

Ambassador's Hands Tied.

As Mother Semple is about as big as a quarter of a pound that reply was valued extremely.

She testified that when Ambassador Sheffield questioned the Mexican government about the episodes of her eviction and banishment he was told "the question is purely domestic."

"Our government officials—our people at the American embassy—were just as courteous as they could be," continued Mother Semple, "but I saw that their hands were tied. I was told that the Mexican officials were watching Ambassador Sheffield every minute, so as to catch him and give him the walking papers. . . . I always went into our embassy as if it were my home. I never even had to bring a card."

Gave Fought Bravely—With Tongue.

Describing the Mexican government's February raid on her convent school at Coyocacan, where she was teaching the ninety girls of "some of the best families in Mexico," Mother Semple said:

"Our girls and children fought so bravely that I think the officers were amazed."

REPRESENTATIVE HULL—You say "fought," madam. What was the nature of the fighting?

MOTHER SEMPLE—With the tongue. [Prolonged laughter and applause.]

The witness continuing—"One of our students said to an officer who had pointed a rifle at her, 'Shoot me if you wish. I am not afraid of you!' I really think the Mexican women

### CHARLIE CHAPLIN IS THE FATHER OF SEVEN POUND SON

(Picture on back page.)

Los Angeles, Cal., March 30.—[Special.]—A second son was born to Mr. and Mrs. Charlie Chaplin in their Beverly Hills home this morning. The baby weighed seven pounds. Mother and child are both well, according to announcement by the film comedian.

The first son of Chaplin and the former Lita Grey was born last June 29.

Chaplin married Lita Grey, who was a Hollywood high school student at Empalme, Mex. At the time she was his leading lady in "The Gold Rush." A new leading woman was obtained by Charlie, and all the scenes in which Lita Grey had appeared were retaken.

Lita Grey Chaplin became a film star at 15, married the comedian at 16, and is not yet 18. She is Chaplin's second bride, the first Mrs. Chaplin being Mildred Harris, movie actress, who obtained a divorce and is now remarried to Everett Zachary McGovern.

The first son of Charlie and his present wife is named Charles Spencer Chaplin II.

### NAB 50 ADDICTS IN U. S. DRIVE ON HEROIN USERS

More than fifty drug addicts were arrested in raids by federal agents last night and early this morning in a drive against the sale of heroin, which, it is claimed, has largely supplanted the use of cocaine in the Chicago district recently. The raids were conducted by Patrick Roche and Charles L. Conners and were made principally on the near north side. They were the result of information given to the narcotic agents by Henry Swann, who, posing as a Wyoming ranchman, is claimed to have been the head of a dope ring in Chicago dealing almost exclusively in heroin. He was arrested late yesterday and held under \$5,000 bonds.

According to the federal officials, heroin is the most dangerous of the narcotics. It produces a murderous mania, they say, and it is blamed for many of the particularly daring crimes of the last few months.

### PAROLED BANDIT SLAIN; SUSPECT SHOT BY CLERK

(Picture on back page.)

Fearlessness of a store clerk averted a store robbery at 1113 South Halsted street last night and resulted in the death of one of the robbers, the wounded of a suspected accomplice, and a bullet wound in the arm of the clerk.

The first son of Charlie and his present wife is named Charles Spencer Chaplin II.

### FED STOLEN CORN TO STOLEN PIGS IN STOLEN STIES

Rushville, Ill., March 30.—(P)—Stolen pigs, fed with stolen corn on a farm bound by stolen fence, whose owner lived in a house built of stolen material with stolen instruments and fitted with stolen fixtures, were described to police today by Fred Clevenger Jr., 26, when he was arrested for chicken thefts. Two hours after the confession farmers living nearby were recovering their pigs, plow and pump from Clevenger's four acre tract, dairymen were claiming their cows, poultry fanciers were identifying their chickens, and representatives of three lumber companies were speculating about how to dismantle the "stolen" house to recover the parts of it built with material taken from their yards.

### YOUTH SLAYS GIRL AND SELF IN TAXICAB RIDE

New York, March 31.—[Special.]—As a taxicab driver stopped his car this morning he looked back at his passengers—a young woman and a young man—and saw them slumped down on the seat. The young woman was dead from a bullet wound in the head and the young man was unconscious from a similar wound. He died without regaining consciousness.

The chauffeur informed detectives, who found a pistol lying between the couple. Four bullets had been fired. Notes found in the dead youth's pockets indicated the pair had quarreled and that he had planned the double tragedy.

### THAT NEW BREW SAMPLED; FIND IT HARD TO TAKE

### Reporter Says It's No Thirst Quencher.

What New Brew Is

Milwaukee, Wis., March 30.—(P)—Officials of the Pabst Brewing corporation gave the following analysis of the new tonic to be sold soon.

Alcohol by volume, 3.75 per cent; malt extract, hop flavored, composed of malt sugar and malt dextrines, 20 per cent; proteins, 3 per cent; mineral salts, lactic acid, and carbonic acid, 2 per cent; water, 71.25 per cent.

Milwaukee, Wis., March 30.—[Special.]—There will be no grooves worn in drug store steps by those who would slake their thirst with the 3.75 per cent malt tonic which the government has authorized.

A Tribune representative visited the Pabst brewery here today to sample the new product and found it medicine. It lacks the semblance of beer in color, texture, and taste, and requires a healthy "chaser" or near-beer to rid one of the after taste. Of the appearance of black molasses, and practically as sirupy, it is so heavily laden with malt and hops as to make it bitter.

According to Fred Pabst Sr., head of the corporation, a whiff of the tonic is sufficient as a dose. After taking one man's size swallow of the concoction the reporter decided a second glass would require an antidote.

St. Louis Brewery Works.

St. Louis, Mo., March 30.—(P)—The manufacture of a malt tonic of 3.75 per cent alcoholic content was started by the Anheuser-Busch Brewing company, Inc., two weeks ago, according to August A. Busch, president of the company. The tonic will not be ready for distribution until after June 1.

"This malt tonic," he said, "is a nonintoxicating beverage. It contains 25 per cent of malt solids, and tends to make it unpalatable in large quantities."

Dry League Protests.

Washington, D. C., March 30.—[Special.]—A stand against the issuance of permits for malt tonics containing 3.75 per cent of alcoholic content, as authorized by the treasury department, was taken today by officers of the Anti-Saloon League of America, who met to consider aspects of the rapidly looming issue over prohibition.

Wayne B. Wheeler, general counsel, and four other officers of the league, feel that the issuance of such permits will lead to evasions of the law, and result in diversion of the proposed malt medicinal tonic for beverage purposes and even in the use of such malt tonics in making near beer.

Drys Issue Statement.

Those attending the conference tonight issued this joint statement:

"The issuing of permits for making of malt tonic of 3.75 per cent alcoholic content is a mistake and will lead to multiplied evasions of the law and diversions to beverage use."

"This was the experience of the government before such permits, which were formerly granted, were canceled. No new evidence has been presented to indicate that this malt tonic will not be used as a subterfuge for evading the law."

"It is not a question as to whether the government technically can issue a permit for making of this malt beverage, but whether it should insist upon its policy of preventing a so-called malt medicinal liquid which is easily diverted to beverage use or which can be added to near beer to make a potable beer."

Volstead Makes Ruling.

St. Paul, Minn., March 30.—(P)—Any hope entertained by potential beer drinkers that the health brew sanctioned by the prohibition enforcement administration will be a delectable beverage easily obtained was quashed here today.

Andrew J. Volstead, author of the prohibition enforcement act, and legal adviser of the northwest enforcement office, declared that unless the brew proves to be merely a tonic unit for beverage purposes all shipments will be seized.

Indiana Drys Protest.

Indianapolis, Ind., March 30.—[Announcement of the ruling of Lincoln C. Andrews to the effect that medicinal beer may be sold in drug stores brought forth indignant protests from officers of the Indiana Anti-Saloon league and the Marion County Women's Christian Temperance union, with assertions that the action should result in the removal of Andrews from his position.

### SEVEN PERISH IN THIS AREA; BIG BLIZZARD

### No Letup Today, Says Forecast.

(Picture on back page.)

Chicago, snow bound and gale swept by the severest March storm in years, was digging itself out last night with the virtual certainty that the work will have to be done all over again today and tomorrow.

The storm area extends from beyond the Rocky mountains as far south as New England. Only the Atlantic and Pacific seaboard escaped, and the official prediction by the weather bureau is for more snow and continued cold in all the snow covered sections.

There will be a heavy fall today and again tomorrow night in Chicago. The snowfall in the 24 hours ending at 7 p. m. yesterday amounted to nearly half an inch in terms of rainfall.

Seven Deaths Due to Storm.

Seven deaths in the city and nearby towns were attributed directly to the storm. An 11 year old boy was struck and killed by the roof of a box car in Hubbard Woods after it had been ripped off by a 35 mile wind. A man of 55 was found dead, presumably a victim of exposure, on the near north side, and a railroad employee, blinded by the driving snow, was killed by a passenger train at first street and the Rock Island tracks. Two men were killed when a train struck an automobile south of Racine.

Stout efforts were made by the city, the Surface Lines, motor bus companies, and the park boards to keep lines of communication free of heavy drifts, which in some places reached a depth of four feet.

Train schedules were interrupted, telephone service was impaired, automobiles were buried on county roads, and even on some city boulevards. In some parts of the city lines of street cars stood motionless for hours, while more than 1,000 workmen struggled with snow plows and shovels to extricate them.

Hits the Southwest.

Other parts of the country, notably the Texas Panhandle, Louisiana and Mississippi, suffered even more severely. In southeastern Texas the storm reached tornado proportions, caused four deaths and property damage that will exceed \$1,000,000, it is estimated.

An \$2 mile gale destroyed 350 derricks in the oil fields near Liberty, Tex. Two employees of drilling companies were killed, and a woman was buried in the ruins of her home at Crosby, Tex., when it was blown down. A colored woman in Beaumont was killed in the same manner. Thirty others were injured.

Damage at Houston will exceed \$250,000 and at Beaumont \$500,000. Houses were destroyed in Louisiana and Mississippi by the tornado, which was accompanied by heavy rainfall.

Report Record Snow.

The plains states were covered by from five to twelve inches of snow and a passenger train was reported buried in the drifts near Foraker, Okla. In southern Illinois the snowfall was the heaviest in many years. Quincy reporting eight inches and Springfield seven inches.

In Chicago a depth of 5-15 inches was reached at 7 p. m. During the month a total of 14-15 inches fell, a record for March.

During the day the temperature ranged from 24 degrees almost to the melting point and the whirling eddies packed themselves into dark, heavy drifts. Late yesterday afternoon the department of streets rounded up 600 workmen and put them to work cleaning loop streets. During the evening, even after the snow changed into a drizzling, sleety rain, they continued shoveling ton after ton of snow into trucks, and transporting it to the river, where it was dumped.

Irving Park Isolated.

The Irving Park district was practically isolated last night. Surface cars were unable to keep their schedules and a number of the automobile lanes into the city were blocked. Archer road, from Summit to a point twelve miles west, was also cut off and scores of automobiles were stranded.

On Crawford avenue, almost directly in front of the Fillmore street police station, a line of cars was held stationary for more than two hours. All attempts to keep the south bound track open were finally abandoned and workmen concentrated their efforts on the north bound side.

A dozen automobiles, including several taxis, were snowbound on the outer drive at Roosevelt road and the

had to desert them there. Bus service from Evanston west to Niles Center was abandoned. At Har-lem avenue and Madison street, Oak Park, three cars, pushing through the drifts, were derailed. Two others were derailed on a line leading from Ber-ryn to Lyons.

"L" Lines Slowed Down. Elevated lines were slowed down, and collisions attributed to poor visual conditions during the storm occurred. No serious operating trouble was antici-pated, however, unless sleet formed on the rails.

Melville S. Dean, 1109 Gage street, Winnetka, was the boy killed in Hub-hard Woods. He and two companions had attended a community play and were on their way home when the wind lifted the roof of the box car at the Pine street crossing and buried him under it. He died almost instantly.

Melville C. Dean, his father, is owner of an electric shop in Winnetka. The man who died supposedly of ex-posure is believed to have been Henry Werner of 1946 Dayton street. He had letters in his pockets bearing that ad-dress. He was picked up at 113 West Illinois street, Peter Schuch, 4217 Wentworth avenue, was the third vic-tim. He was 35 years old and was a car repair man for the Rock Island railroad.

Eleanor Wudak, 15 years old, 2229 Armitage avenue, suffered a fractured skull last night when a sign blew off a building at Van Buren street and Western avenue.

Signs and trees were blown down in all sections of the city. In two in-stances fire companies were called on to remove fallen trees from arteries of traffic.

Oliver Weber, 11 years old, was se-riously injured when a brick was hurled from a building at 6265 South Halsted street and struck him on the head. His skull was fractured.

Many Fire Alarms. Fifty-five fire alarms were turned in between 5 p. m. and midnight. Nu-merous auto stop lights were put out of commission by the storm. Police-men reported trouble with short cir-cuited call boxes.

The city will keep 600 men at work today and the Lincoln park system, which had 250 at work last night, will continue them today.

Raymond Stennett, 4462 North Rich-mond avenue, suffered the loss of a leg when he fell from a snow plow at 63d street and Stony Island avenue. Herbert Heath, 1747 West 160th place, was seriously injured when his auto-mobile was struck by a Rock Island train at 160th street. He had been blinded by the snow.

Two Michigan Central express trains which left the Twelfth street station at 9:30 p. m. were reported stalled in the yards.

No comparable weather in the mid-west has occurred. It is said, since April 4, 1926, when six inches of snow fell in and about Chicago. The end of March in 1907 and 1901 was under similar conditions. It was pointed out that in these years the severe weather was not so widespread.

Official Forecast. The official statement of "weather conditions" by the Chicago forecast center says:

"The storm noted in the west gulf region Monday evening steadily de-veloped during the night, and by Tues-day evening the center had passed northeastward to the middle Mississip-pi valley, with the lowest barometer at Cairo, Ill. The storm has assumed most unusual proportions in its in-

This map shows the disturbance which caused yesterday's violent storm. The snow and ice was due to an area of low atmospheric pressure centered over the lower Mississippi re-gion. Virtually all the United States

east of the Rockies felt its force, in the south as rain and snow and in the north as heavy snow. The shaded area on the map shows precipitation, much of which was in the form of snow.

Intensity and extent. The area of pre-cipitation during the day covered prac-tically all sections from the Gulf re-gion northward to the Great Lakes and as far west as the eastern slope of the Rockies. In the western and north-ern portions of the area precipitation was in the form of snow and sleet, while heavy rains were registered in the sections to the south and south-east. Strong winds, moreover, reach-ing gale force, were general, and in the south numerous thunderstorms oc-curred.

"Unseasonably cool weather con-tinued during Tuesday over all northern and western districts."

Low temperatures prevailed over the entire southwest. Amarillo's eleven inches of snow was followed by a drop of the thermometer to 16 degrees. Last Sunday, in balmy spring weather, picnic parties dotted the roads. Yes-terday only a few motorists ventured out and intense efforts were made to clear lines of communication. Even at Brownsville, 700 miles south of Ama-rillo, the mercury fell below freezing.

At Charlevoix, Mich., communication between the mainland and the 1,000 in-habitants of the Beaver islands was cut when the ice broke up under the heavy winds. Postal officials have pe-titioned for airplanes to communicate with them.

Damage to Crops. Central Iowa reported seven inches of snow. In Oklahoma, particularly at Enid, heavy damage was done to the fruit crop. Apricot, peach, and pear trees were already in bloom and below freez-ing temperatures caught them. At Wil-liams, Minn., the isolated home of John Newman burned during the storm, kill-ing Newman, his wife, and five chil-dren.

Heavy winds swept through Missis-sippi. At Magnolia a power plant was destroyed. At Independence and Cor-ington, La., winds were so strong that automobiles were overturned. The New Orleans weather bureau reported that March precipitation records for eighty-one years were broken, with 14.61 inches. Snow was deep in Arkansas.

Sedalia, Mo., had more than four inches of snow. At Appalachicola, Fla., the wind reached 33 miles an hour and storm warnings were issued for the gulf coast from Bay St. Louis, Miss., to Tampa, Fla.

Wheat Farmers Happy. Despite the loss of the fruit crop in the southwest, wheat farmers were jubilant. The moisture and the pro-protecting blanket of snow, it is said, will bring a bumper winter wheat crop in Kansas and Oklahoma.

Weather experts explained that the unusual weather was due to two cold waves, one developing in the north-west and the other in the southwest.

FOUR DIE AT RACINE

The deaths of four men near Racine, Wis., were attributed to the storm. They were killed when an automobile in which they were riding was struck on a grade crossing, three miles south of the Racine depot, by a Northwest-ern train.

It is believed that the heavy snow prevented the driver from seeing the approaching train. The dead, em-ployees of the J. I. Case company, are George Zentes, Charles Mastous, Anton Petraki, and George Mastous. Peter Charos and Theodore Petraki were se-riously injured and may die. All were on their way from the plant to their homes in Racine. A seventh man, George Malos, escaped by leaping from the car as the train bore down on them.

## 'L' TRAINS CRASH ON SOUTH SIDE; MANY INJURED

Injuries were sustained by many home bound passengers on two south side elevated trains which collided in the snow during the rush hour last evening near Thirty-fifth street. None were killed, but several had to be car-ried to nearby physicians' offices and later removed to hospitals. A score re-ported minor injuries.

A Jackson park express train had come to a stop just past the station at Thirty-fifth street, which is a nonstop point for express trains. A Kenwood express, following closely, crashed into the rear end of the stopped train.

One explanation was that the first train had halted suddenly because of a broken drawbar. Another was that it

stopped because of a block signal. The motorman of the Kenwood train either didn't have time to check his train and prevent the accident, or the heavy snowstorm prevented his seeing that the way ahead was not clear.

There was a moment's panic after the collision, but the passengers were soon assured there was no further danger. The uninjured were trans-ferred to local trains, as the express track was blocked for forty minutes.

The known injured are: Miss Helen Stevens, 4831 Sheridan road, who intended to board a north-bound train in the loop and by mis-take took the south side train, in-juries to head and body; taken to Provident hospital.

Others Hurt; Some at Hospital.

V. W. Brown, 52, 1113 East 62d street, taken to Provident hospital; Corine McCready, 4718 Champlain ave-nue, and Jeanette Hawkins, 423 East 42d street, colored, Provident hospital; Marjorie Maxey, 6434 Cottage Grove avenue; Elizabeth Jacoby, 64th Drexel avenue, and Blanche McDonald, all able to go home; Miss Florence Lay-ton, 818 East 63d street, right knee injured; Miss Lavonia Dickinson, 5337

Woodlawn avenue, head bruised; Miss C. Guttman, 6746 Calumet avenue right side injured; Mrs. A. Peterson, 6107 Dorchester avenue, back hurt; Miss Blanche McDowell, 6268 Drexel avenue, left knee cut.

Among those who later gave tele-phonc reports of injuries were: James C. Bailey Jr., 6137 St. Lawrence avenue; Virginia Whit, 4307 Ellis ave-nue, and Charles White, 2265 South Wabash avenue.

TAILORS TO DINE AND SHOW MEN'S SPRING STYLES

What the well dressed man will wear for the Easter promenade, as well as upon all other occasions, will be re-vealed Friday evening, when the Chi-cago Merchant Tailors and Designers' association will give its semi-annual banquet at the Great Northern hotel. There will be a style show in which main perfect sizes will parade in all the bright colored apparel decreed for this year. An attendance of several hundred tailors from the middle west is expected.

"GIVE"—Say the Sun and Brook

The sun and the bal-bling brook give of them-selves every hour, and yet it seems they grow brighter and livelier, the more they give. 'Tis the law of life, that peo-ple who are giving, day by day, grow more gra-cious as Time passes. Especially at Easter, is the custom of giving appropriate and beau-tiful. Stevens will help you in making happy selections:

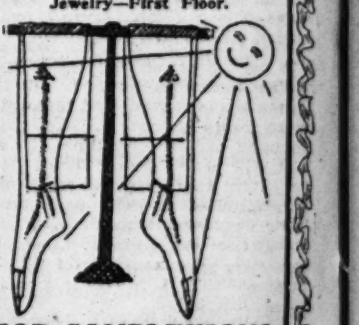

PEARLY HOURS FOR THE EASTER BRIDE

A ray reminder of friend-ship, every hour, is Time encased in mother-of-pearl. The alarm of this dainty clock is so cheery, that early breakfasting with 'Hubby' becomes a delicious adven-ture! Guaranteed, \$9.50. Gift—First Floor.

CHARTREUSE CHEZ PATOU

Jean Patou inspired the delicate chartreuse green of these pearls, strung in the new Biarritz manner. The play of their soft color is like Spring's softest light. \$18.50. Earrings and bracelets to match make a regal Easter gift. Jewelry—First Floor.

FOR COMPLEXIONS LIKE A TEA ROSE

The Easter promenade makes competition keen, in history. The woman who matches her complexion with her complexion, need have little fear. Delicate Lace Clox add to the allure of 'Delmon' Chiffon Host in Tea Rose, Mouss, Rose Beige, Banana, and Moon-glo. Hosiery—First Floor.

INSTEAD OF THE EASTER CORSAGE

Quaint embroidered flowers bloom on a Silk Pouch Bag, to dramatize an Easter costume. Pearl gray, tan, blonde, green, blue, or black Fillee or Mouss—mounted on an engraved be-jeweled frame, \$12. Handbags—First Floor.

ARISTOCRATS FOR EASTER CALLS

Gift-gloves should be es-cusive. The "Aristocrat" Capelin Glove is to be found in Chicago only at Stevens. In cork, alcedale, or ash gray—with stitching and band tops of green, blue, or red—they will brighten the glances of April days! Pair, \$3.50. Gloves—First Floor. (Easter Gifts Copyrighted by Chas. A. Stevens & Bros., 1924.)

## GIVES RUDDY HEALTH TO SICKLY CHILDREN

Children that lack energy and are listless and peevish, should be given Coco Cod to vitalize their systems and give them bodily health and vigor.

Coco Cod is pure cod liver oil, chocolate-flavored to make it pleasant to take. Recognized by physicians as the most concentrated form of nourishment. To the cod liver oil is added the health vitamins from yeast, eggs, spinach and lettuce, making a preparation superior to cod liver oil in its health-building and energizing qualities. Children like to take Coco Cod because it tastes like chocolate.

Physicians everywhere recom-mend Coco Cod for the treat-ment of children suffering from under-nourishment, malnutrition, rickets and other forms of weak-ness. One physician says: "Have given Coco Cod to a five-year-old patient suffering from malnutri-tion. Three bottles showed sur-prising improvement."

Begin today to develop your children by giving them Coco Cod—nature's own unequalled health-builder. All druggists.

The future revenue will be much greater than was ex-pected. A deficit in the next fiscal year will be dissipated.

But Mr. Coolidge is opposed pending or contracting to ex-pense funds that are not actually in. For this reason the President grave consideration before the meeting to various items on the lative program of the house of his advice was sought by Re-ative Tilson (Rep., Conn.), a leader of that body.

Points to Tax Reduction The President pointed out that Congress had reduced more radically than the execu-tive thought safe at the time. The nue, therefore, was reduced an extent that it would barely ex-penditures already authorized law. Further increase of expen-diture would threaten a deficit unless tax revenue next year on this income should prove much than anticipated.

## BUSINESS WORLD OUTLOOK BRIGHT, PRESIDENT SAYS

Stock Mart Flurry Fails  
to Worry Coolidge.

BY ARTHUR SEARS HENNING.

Washington, D. C., March 30.—[Special.]—President Coolidge and his cabinet surveyed the state of the Union at their semi-weekly meeting today and found conditions satisfactory. The President is optimistic regarding the future of the country, and the cabinet members are in agreement with his view. The President's confidence in the country's future is based on the fact that the economy is sound and the government is efficient. He believes that the country is on a path of steady growth and that the future is bright.

On the contrary, all the information coming to the President concerning the state of the country is encouraging. There is little unemployment. The President is convinced that every man who is willing to work at prevailing wages can get work. There is still a slack condition in the textile industry, but that, in his opinion, is due to causes seated deeply in post-war readjustments.

Notwithstanding the encouraging outlook, the President is disposed to advise the adherence to a cautious and cautious policy on the part of private enterprise and of the government itself. There should be no departure from the rules of economy and sound financing by either corporations or the government, he advises.

**Sees Business Expansion.**  
Income tax receipts are larger than had been anticipated and there is every expectation that business will continue growing, and the revenue from income taxes increasing proportionately. Probably the future revenue will be so much greater than was expected that fears of a deficit in the next fiscal year will be dissipated.

**Points to Tax Reduction.**  
The President pointed out to Mr. Tilton that congress had reduced taxes more radically than the executive had thought safe at the time. The revenue, therefore, was reduced to such an extent that it would barely finance expenditures already authorized by law. Further increase of expenditures would threaten a deficit unless income tax revenue next year on this year's incomes should prove much greater than anticipated.

**Favors Better Pay for Judges.**  
He sees no reason, however, that the salaries of federal judges should not be increased. Such increases would not involve a large increase in expenditures. The compensation of national legislators has been raised from \$7,500 to \$10,000, and the President thinks that judges now receiving \$7,500 have a valid claim to be paid as much as congressmen and senators.

The \$50,000,000 outlay for new public buildings and \$50,000,000 for waterway development the President approves as additions on capital account, but he looks askance at programs for increasing army and navy expenditures about \$60,000,000 annually.

## WINNING BRUSH WITH DEATH

### Luther Burbank Wins His Second Brush with Death

Santa Rosa, Cal., March 30.—(AP)—Luther Burbank appeared tonight to have won his second brush with death in two years. A bulletin issued by his physician, Dr. Joseph H. Shaw, said he had spent a comfortable, restful day, "and if given a good physical and mental rest, he will recover."

**Charles Brown, Decorator, Missing; Friends Worried**  
Police were carrying on a search yesterday for Charles Brown, 50, painter and decorator, 925 Leland avenue, who was reported missing since last Saturday. It was said that Brown was carrying about \$1,000 when last seen by his friends and relatives. He said he was going to the home of John Scully, 647 Junior terrace, but he did not arrive there.

### NEW OFFICE METHODS SAVE COUNTY YEARLY \$875,000, EXPERT SAYS

Increased adoption of machinery has effected savings of \$2,430,000 for Cook county, J. L. Jacobs, efficiency expert, reported to the county board, covering the time since December of 1922. The rate of saving, he computed, was about \$875,000 a year. At the close of 1922 the county board adopted methods that have led to the writing of tax book entries by machinery, while deeds and other documents in the offices of court clerks, except that of the Superior court clerk, have been photographed, instead of being copied in long hand or on the typewriter, and certified. Saving of \$48,000 a year is claimed by making one heating plant serve both the county building and the city hall.

## CHICAGO BRANCH OF ARMY RELIEF SOCIETY FORMED

Plans Aid for Soldiers' Widows and Orphans.

A Chicago branch of the Army Relief society has been organized through the activities of Mrs. William H. Hubbard, 1210 Astor street. Its objects are to collect funds and provide relief in case of emergency for dependent widows and orphans of officers and enlisted men of the regular army, to aid in securing employment for them, and to solicit scholarships and supervise educational opportunities for such orphan children.

The officers of the Chicago branch, as announced yesterday, are as follows: President, Mrs. William H. Hubbard; treasurer, Mrs. Harry Hart Shearson; secretary, Mrs. Charles Curtis Smith; recording secretary, Mrs. Albert M. Kales; vice presidents, Maj. Gen. George Bell Jr., retired; the Rev. Duncan Hodge Browne, James B. Forgan, Mrs. William S. Graves, Maj. Gen. Harry C. Hale, retired; Frederick T. Haskell, Col. Noble B. Judah, Col. Robert R. McCormick, Horace S. Oakley, Edmund A. Russell, Mrs. Arthur A. Small, Col. Albert A. Sprague, Ralph Van Vechten, and Mrs. Moses Wentworth.

**Coolidge a Vice President.**  
The society, which has headquarters in New York, with President Coolidge and other public dignitaries among its honorary vice presidents, requires at least ten sections for the formation of a branch. The section chairmen of the Chicago branch are: Chicago section, Mrs. Arthur A. Small; Sixth corps area headquarters, Mrs. William S. Graves; Fort Sheridan, Mrs. Michael J. Lenihan; Highland Park, Mrs. Henry E. Mason; Winnetka, Mrs. George B. Massey; Evanston, Miss Josephine Stockton; Wheaton, Mrs. Will Lyford; Lake Geneva, Mrs. William N. Pelouse; Fort Omaha, Neb., Mrs. Benjamin A. Poor; Lake Forest, Mrs. Harry F. Hodges.

The schedule of government pensions now in force for army widows is presented by the relief society as the great reason for its existence. Widows of privates and noncoms receive only \$12 monthly. Widows of second lieutenants, \$15, and of captains, \$20. A major's widow receives only \$25, and the widow of a colonel or general only \$30 a month pension. The sum of \$2 a month is allowed for each orphan child until 16 years of age.

**Pension Not Sufficient.**  
"From this," says the society's report, "it will be seen that unless there are other means of support, the government allowances are not sufficient."

## CLERKS IN BIG LONDON STORE MUST ADDRESS CUSTOMERS BY NAMES

New York, March 30.—[Special.]—Plans of a London department store to have its employees learn the names of customers and address them by their names, thus establishing a more personal relationship between the store and its patrons, were disclosed today by Harry Gordon Selfridge Jr., son of the department store owner of London, formerly of Chicago. The younger Mr. Selfridge arrived on the Majestic for a month's visit. He will study methods of the largest department stores of this country, those here, in Philadelphia, Chicago and in Boston.

by themselves to meet the living needs of any woman or family.

"Another fact that is not generally known is that the widow of a retired officer or soldier receives no government pension whatever."

"Also please remember that little children and babies are not the only orphans that we are privileged to help," the report continues. "There are middle aged and aged single women, daughters, for whom their parents were not able to make provision and for whom no pensions are allowed. Most of these women go out and become self-supporting until their health fails and they are obliged to give up their positions to make way for younger women."

"These are the people to whom we minister and for whom we ask interest and support."

**WOMAN ACQUITTED IN SHOOTING.**  
Mrs. Blandina Haislip, 2308 Flournoy street, was acquitted by a jury before Judge William V. Brothers yesterday on a charge of assault with intent to kill James G. Kelly. Her husband, Horace Haislip, shot Kelly in the leg; it was shown, but the state attempted to prove his wife instigated the act.

## SPINSTER, 81, SUES FOR \$400,000,000 NEW YORK LAND

New York, March 30.—[Special.]—Contending that she is the only surviving heir of Jacob Arden, original owner of the property, Miss Louise H. Bradley, 81 year old spinster, began litigation in the Supreme court here today by which she hopes eventually to gain possession of property in the shopping district of Manhattan worth \$400,000,000.

Miss Bradley's plans embrace action for acquisition of practically all the property between 30th and 33d streets and from Fourth to Eighth avenues, and portions extending to Eleventh street. Edwin J. Lukas, her attorney, said the \$400,000,000 estimate is conservative. The Gimbel building, sections of the Pennsylvania railroad terminal and of the Hotel Pennsylvania and of the Waldorf-Astoria are included.

The aged spinster asserts that her ancestor Arden owned a Manhattan farm which was cut into pieces and sold contrary to the terms of Arden's will.

## MOTORIST GUILTY OF DRUNK DRIVING GIVEN CELL, FINE

Found guilty of driving while intoxicated, Joseph Kostich, 32 years old, was sentenced yesterday to serve thirty days in the Bridewell and pay a \$100 fine. Judge Matthew D. Hartigan was told by witnesses that Kostich had been drinking when the automobile he was driving struck a pedestrian at Lincoln street and Roosevelt road.

Doris Luessman, 8 years old, daughter of Dr. H. W. Luessman, 923 Forest avenue, Evanston, was cut by flying glass when the automobile driven by her father crashed into a lamp post at Wesley avenue and Main street, Evanston.

## LEITER LETTERS TIE THE SCORE ON NINTH DAY

Joe's Economy Evens Up  
for Sister's Doubt.

BY GENEVIEVE FORBES HERRICK.

Two letters read yesterday before Judge Denis E. Sullivan, just about tied the score on the ninth day of the Leiter lawsuit.

One letter, written by Joseph Leiter's sister Nancy to his sister Daisy (Lady Suffolk), hinted that brother Joe, in his endless financial venturing, had perchance bitten off more than he could chew.

The other, written by Joe himself to J. C. Beebe, one time manager of the Wyoming ranch, was the calligraphic embodiment of all the copy book maxims about frugality, careful husbanding of money, and attention to detail; and it succeeded gloriously in insinuating, in portraying its author as the assiduous watchdog of the Leiter treasury.

Score for Both Sides.

The epistles were read into the record by Attorney Leland K. Nevees of counsel for Lady Margaret Hyde, Countess of Suffolk and Berkshire, who is charging her brother with mismanagement of the estate of their father, Levi Z. Leiter. But where Mrs. Nancy Leiter Campbell's letter to her sister, the countess, shot straight for the defendant, the other letter ricocheted. Indeed, it not only did not hit Joe; it seemed, to mix the metaphor, to cancel a goodly number of the black marks which the other note had left on his reputation for business acumen.

Mrs. Campbell's letter, written to her sister on March 12, 1921, is fundamentally significant, of course, in that it reveals for the first time during this trial that Nancy, who now sides so vigorously with Joe, had her moments of hesitation as to her brother's complete dollar sign wisdom.

Fun and Sadness Mingled.

As tangents to the legal value, there were humorous and pathetic sides to the note. The fun came in reference to the inter-relationship between the fortunes of the Leiters and of the Republican party. The saddest centered about the mention of the death of young Josie, Joseph Leiter's eldest son, who died on Jan. 10, 1921, at the age of 14. The letter follows:

"Darling: Thank you so much for your letter and the business letter, with which I quite agree. Now seems a very important moment to commence agitating. Seymour Morris (former trustee, now dead) is ill in the hospital and Joe and Juliet (Mrs. Leiter) are in such great grief. Joe is coming back from yachting now. I had a wire asking me to send Nancy back as Juliet was returning to Washington, which means he will be in Chicago soon."

No Report of Trustee Meeting.

"Mr. Lawrence also wrote me that no report of the trustee meeting had been sent to him nor have I had a copy. Mr. Morris was to have seen to all the beneficiaries having a copy, but I fancy his health has been very bad. He looked ill when I was in Chicago."

Every one is worried over the

## LAKE SHORE DOUBLE DRIVE PROJECT HELD UP BY 3 OWNERS

Widening of Lake Shore drive, from Oak street to North avenue, may be delayed as the result of a move instituted by a minority of the property owners, whose consent is wanted before starting the improvement, it was learned yesterday.

After a year's controversy more than 95 per cent of the owners have consented to a double drive, with the parkway in the center. Only three owners are still objecting to a two way boulevard and insisting on a single drive 100 feet wide. They are Charles A. Munroe, Frank G. Logan, and Potter Palmer.

Mr. Munroe has proposed to the park board that the owners be asked to accept an assessment of \$20 a foot toward the construction of a single drive, which will cost considerable more than here. The proposed double thoroughfare.

The park board is urging the double drive for beauty as well as economy. Such a drive could be constructed by adding another 45 foot roadway to the east of the present drive, leaving the parkway with the trees in the center.

While of the opinion that enough signatures have been secured to proceed with the improvement, park officials are reluctant to start without the consent of all so as to avoid any court action which might delay the project.

enormous taxes. It is the same the world over. When do you sell, darling? We do want to go to the ranch when you are there. The farming has not been so profitable this year as last owing to the low price of grain. Farmers leave their crops on the ground here. It does not pay to harvest them.

"It is a very serious situation, but usually what happens when the Democrats have been in and lowered the duties. Free trade has always meant great suffering among farmers. One hopes much from Harding. I wonder if he will be able to do all that is expected of him."

Sees Menace in Germany.

"The allies and Germans are a great menace, and peace and prosperity cannot be absolute while we have such a menace as Germany, her politicians, or Kaiser."

"I wish as much as you do that we could get our share of the estate MTL (Mary T. Leiter, their mother) settled up. We have never had any regular payments of interest on \$150,000 owing."

Now—Joe owns Du Pont Circle, Palisades, Chateau Charnard, Beverly farms, and rents Chicago flats, five places more than we have. I fail to see why he won't pay up. I have begged and pleaded, and now, if we insist, it means a family row, always a cursed thing."

Illinois Residence Necessary.

"The fact in Chicago he has to have, as D. C.'s laws are such that he cannot be sued or cannot sue a man, something which renders a residence in a state necessary, and he must be able to vote in Illinois."

"I have often wondered if it would be a great thing to have Mr. Platt have my power of attorney, but he is so busy I doubt if he would undertake it. I do not think there is any cause for worry, but I think Joe has bitten off more than he can chew."

"Five homes means an enormous income. He is trying to sell the Virginia

house. I hope he succeeds. It is a fascinating house, but people—servants are the problem—don't want a house so far away."

Joe Lays Down the Law.

The other letter, written about a year earlier, on Christmas eve, 1920, from Joe Leiter to Agent Beebe, has Joe commenting thereupon to select but a few of the phrases:

"I want the details of your budget."

"Your expenditures should not exceed \$25,000." "I propose pulling the purse strings except for expenditures authorized by the budget or by a special requisition."

"I find that by keeping my fingers very definitely on the purse strings alone I can cut down expenses. However, I don't mean that you can't purchase a hammer without getting permission."

"I am running the ranch for the purpose of making money and for no other reason."

More Economy Suggestions.

Two weeks later Mr. Leiter, still the zealous exemplar of economy, sent a second message to Mr. Beebe. He suggested, for instance, that the bookkeeper might well double as timekeeper; that the stenographer might do a Frodo-Bah the quartermaster for the ranches. And he voted thumbs down on "ditch riders" galloping up and down the length of the ditches, just for the ride.

For the rest, yesterday's evidence centered about Earl Bronson, auditor for the Leiter estate.

At the conclusion of several hours of arithmetic Mr. Bronson closed his direct testimony with a reading of the audits of the Leiter estate from 1905 to 1917. The purpose of this, Attorney Nevees explained to Judge Sullivan, was to show that from 1905 to

1917 the western properties under trustee operation of the farms had resulted in an average yearly loss of \$18,000.

are worth more than the men. The men are not afraid to die—but they are afraid of the women."

Extreme Measures Decried.

Questioned about ecclesiastical conditions as affecting foreign born religious teachers in Mexico, Mother Semple said:

"As long as these severe anti-clerical laws of the Mexican constitution of 1917 exist there'll be no living in Mexico for foreign born Catholics, Protestants, Jews or Gentiles. I was ordered not to eat or sleep in our conventual house, to hold no chapel service, to display no insignia—crucifix or anything like

that—and not to pronounce the name of God in teaching. Even a native priest can't stand in the pulpit and preach freely. There are spies in the pulpit to hear what he says. Sometimes in the middle of the mass they take him away to prison."

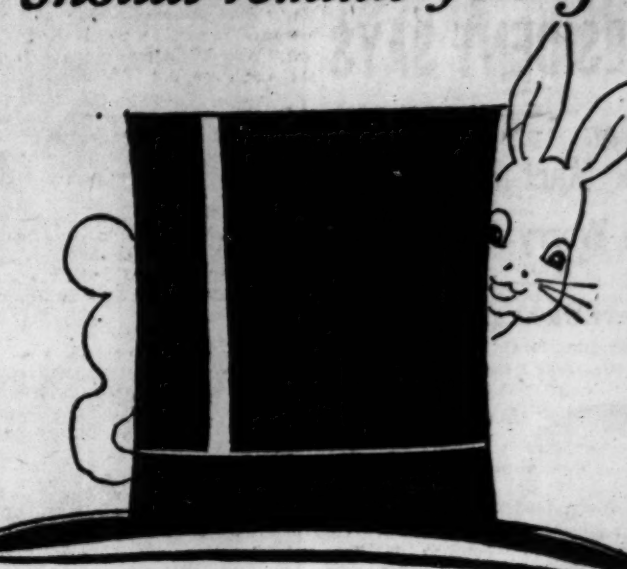

Depend on U. S. Recognition.

Mother Semple, who was born in Alabama in 1856 and was sent to Mexico in 1911 as superior of the House of the Visitation, was today's star witness at the congressional hearings granted Roman Catholics who are supporting the resolution of Representative John J. Boylan (Dem., N. Y.) for withdrawal of recognition of Mexico by the United States on the ground of tyrannies practiced against inoffensive religious teachers.

Withdrawal of recognition is, according to Mother Semple, fatal to a Mexican régime. "If," she said, "the United States is not in favor of a president, that president has to go. That is a positive fact."

Clergy and laymen representing 100 bishops, ten archbishops, 4 cardinals, 25,000 clergymen, and 20,000,000 Roman Catholic laymen also were heard by the foreign affairs committee, which will continue these hearings tomorrow.

## CROWE GOES ON WARPATH OVER PHONE ARREST

Election Judge's Seizure Endangers Prosecutor.

BY FRANK BUTZOW.  
(Pictures on back page.)

State's Attorney Crowe went on the war path last night in search of a political enemy who telephoned to a police station, caused the arrest of an election judge, put the state's attorney in danger of being held for contempt of court today and caused the Republican warfare all over again.

Until the state's attorney started his determined search last night the Republican county conflict was desultory. The row between Mr. Crowe and County Judge Jarecki over the arrest of three election officials last Saturday night had been patched up all but finishing the legal technicalities before Appellate Court Judge David F. Matchett today.

**Crowe and Jarecki Compromise.**  
During the day the state's attorney had agreed to drop charges against the election officials and the county judge had agreed to dispense with the services of one of them, Ralph Phelps, colored election judge in the Second ward.

**Matchett Judge Matchett retained jurisdiction over the habeas corpus proceedings in which the three election officials were released temporarily after their arrest Saturday night. He intended to dispose of the matter today.**

Pending today's action it was agreed that any further molestation of Phelps and other election officials, Frank Pabell and Walter Kaspery, would constitute contempt of court.

Everything was headed for settlement of this feature of the political war. Then the telephone in the Star avenue police station rang. A voice said it was speaking from the state's attorney's office and ordered the immediate arrest of Phelps, Lieut. Bernard had Phelps locked up in a few minutes.

Mr. Crowe ordered the immediate release of Phelps, and had Chief Collins issue a general order that no arrests be made on telephonic orders from the state's attorney's office hereafter.

**Start Contests on Ballots.**  
Numerous complications, including several candidates' contests that held up the printing of the 7,000,000 ballots for the April 13 primary, silenced all guns in the main sector yesterday.

Just as it appeared that the name of the late Appellate court clerk, Francis P. Brady, a candidate for re-nomination, would be printed on the Republican primary ballots despite his death, Otto F. Ring, a candidate for the Brady post, went into Judge Ira Rymer's court for an injunction.

Just previously the election commission obtained an opinion from its attorney, Joseph B. Fleming, that there was no precedent for the situation and that Brady's name should go on the ballot. County Clerk Sweitzer was following similar advice.

The Ring bill is directed against the election commission. County Clerk Sweitzer, and Secretary of State Emerson. Meantime the printing of 7,000,000 ballots for the entire city was held up.

**Assembly Ballot Contest.**  
Things were further complicated in the Third senatorial district, where W. G. Anderson, colored, is holding up the ballot printing by a contest to keep the name of State Senator A. H. Roberts, colored, off the ballot, on the ground that he is a deputy Municipal court clerk and therefore ineligible to return to the senate. The case is before Superior Judge C. A. Williams for decision today.

The Crowe-Barrett committee held a meeting yesterday and, after a new checkup on ward leaders, announced that 367,114 pledge cards have been signed up for the ticket.

When the several muds that are delaying the ballot printing are settled election commission and all political organizations have been assigned to watch over the printing at the Kendall-Leach plant, 610 Federal street. Much further delay will seriously interfere with preparations for the April 13 primary, now less than two weeks away.

## Notes of the Day in Politics

The Roosevelt Republican Women's club of Evanston has endorsed Ald. Francis L. Boutell (48th) for president of the county board, and the Crowe-Barrett candidates from the country towns—Frank J. Kriz, C. Ernest Guyton, Oscar W. Schmidt, John Janowski, and Joseph P. Carolan.

The Women's Roosevelt Republican club, which has endorsed Senator McKinley, will hold a luncheon for the senator at the Palmer house next Monday.

President J. W. Kline and Secretary William F. Kramer of the International Brotherhood of Blacksmiths have endorsed Frank L. Smith for senator.

The United Republican War Veterans' league has endorsed Harry Klatco for the Municipal court. Mr. Klatco's backers say he is the only war veteran in the Municipal court race.

James A. Peterson, candidate for state representative in the Twenty-fifth district, has been endorsed by the Air Service Officers' association and air service reserves plan exhibitions to aid him.

## PICKPOCKET, LONG MISSING, TAKEN IN EAST

David Stark, missing after fifteen continuances on a charge of picking the pockets of William B. Austin, banker, 1245 Astor street, was arrested in New York yesterday.

Austin, robbed on a Clark street car late in 1925, charged powerful political influences were used to induce him not to prosecute Stark.

Thomas W. Ralby, state representative, was Stark's attorney when Judge William V. Brothers forfeited Stark's \$5,000 bond. New bond was fixed at \$15,000 and a capias issued.

Herman Cohen, 649 North Clark street, Stark's bondsman, appeared and promised he would make Stark return. Nothing further was heard until yesterday. Mr. Austin, after appearing in court fifteen times, is ready to begin again.

Sgt. James Homa of the detective bureau, was sent to bring Stark back for trial.

## Girl's Charges Against Realty Men Continued

Statutory charges against J. Arthur Dundas, John W. Hill, and three others of the North Side Realty company, which were preferred by Miss Irene Saari, 22 years old, whose story of an orgy in Hill's rooms at the Sheridan Plaza hotel led to their arrest, were continued yesterday until April 21 by Judge Frank M. Padden in the Town Hall court.

**FREED OF BAD CHECK CHARGE.**  
Mrs. Mildred Geise, 31, former wife of Harry Geise, radio singer, was freed on a charge of passing a worthless check for \$35 in the Town Hall court yesterday.

The Young Men's Seventh Ward Republican club, which has endorsed Frank L. Smith for senator, will hold a rally tonight at 2832 East 79th street.

Declaring that "golf is a revealer of character," 200 leading golf enthusiasts headed by Hobart P. Young, president of the Western Golf association, and Chick Evans, former national open and amateur champion, have organized to support Charles V. Barrett for the board of review.

Peter S. Lambros, editor of the Greek Star, heads a Greek-American organization which will try to deliver the 50,000 Hellenic votes in Illinois and 50,000 more votes to Senator McKinley.

Edward H. Luebeck, former president of Crane Tech alumni and Deaneen candidate for Municipal judge, reports endorsements by the Wage Earners' league, German-American Citizens' league, the Dove club, the Chicago Tire Dealers' association, and Crane High School Alumni association.

President A. J. Cermak told of the county board achievements under his administration at a meeting of the Women's City club yesterday.

William X. Meyer, Democratic candidate for congress in the Tenth (north shore) district, intends to make his race on an anti-Volstead platform.

A. Jefferson Schultz, Republican candidate for congress in the Seventh district, declared he will vote for a resolution calling for withdrawal from the world court, and also for beer and wine.

The greatest mixed endorsement of candidates by any organization in the present campaign has been made by the Dove club, a leading Norwegian organization, which split about even between the Crowe-Barrett and Deaneen-Lundin organizations.

## BERTHA IS RED RIDING HOOD OF POLITICS-BRITTEN

And It Seems He Means  
Haffa Is the Wolf.

Repatriate along the gold coast, in the exchange of civilities between Representative Fred A. Britten, who landed the Army-Navy game for Chicago, and Mrs. Bertha Laur, his rival for congress in the Ninth district, attained new heights last night. The Hon. Fred called the Hon. Bertha the "Little Red Riding Hood" of politics, this by way of retort to the Hon. Bertha's remarks in the morning prints that the Hon. Fred was most careless with the truth and could not "imitate a gentleman."

"The lady's unfortunate language is evidently caused by excitement," said Representative Britten, speaking in the Forty-second assembly district, "I am sorry that the truth is so distressing to her, yet I refuse to be drawn into any undignified controversy with this wealthy society lady."

Another Slap at Haffa.  
"She resents having her name linked with that of her chairman and campaign manager, 'Tubby' Haffa. This rich society lady has seen fit to enter a political race where she could set a dignified example for women candidates of the future, but, instead, her attitude and language are most unfortunate."

"Her selection of Titus Haffa, personal bondsman for murderers, burglars, and wife deserters, as chairman of her campaign committee is causing north side society to ask, 'Did Little Red Riding Hood select the wolf or did the wolf select Little Red Riding Hood?'"

"Future women candidates will be judged by the methods employed by the society lady who uses important names on her invitations and announcements without authority."

Disputes Her Claim to Backers.  
"An invitation over the name of Mr. Gustav Hessert and three others for an affair at the Opera club is out today. Mr. Hessert said he gave no one authority to use his name, that he is for Fred Britten."

"Another pamphlet contains the name of Laurence Whiting, bank president and promoter of big enterprises for Chicago. Mr. Whiting says he has repeatedly told the lady that neither he nor Mrs. Whiting would vote for her, that they were for Fred Britten on his record in congress."

"If women are to stay in politics they can do so only by setting high standards for their sex and they must not cry at honest criticism."

**Walter Gersch, Ex-Cop, Indicted as an Embezzler**

Walter Gersch, 2437 West Jackson boulevard, former policeman, was named in a true bill by the grand jury yesterday on a charge of embezzling \$1,997.50 while he was a trustee for the Policemen's Benevolent association at the Maxwell street station. An additional charge of larceny, which resulted from his driving a rent-a-car automobile to Florida, was preferred by the grand jury.

**HUSBAND BACK IN JAIL.**  
Patton to give bond, Adam Dake, 54, a civil engineer who was brought back from California on nonsupport charges, was sent back to jail yesterday by Judge John J. Lape.

## B. G. A. NAMES ITS TICKET, MOSTLY OF DENEEN MEN

Back Wolff, but Dixon Is for Barrett.

The Better Government association yesterday made its recommendations to voters for the Republican primary April 13. They included practically the straight Deneen-Lundin ticket, with some exceptions.

The B. G. A. endorsed Coroner Oscar Wolff for the board of review against Reviewer Charles V. Barrett. However, the former B. G. A. treasurer, George W. Dixon, endorsed Barrett. It was Mr. Dixon who protested when he heard that the B. G. A. had taken \$23,000 from George E. Brennan.

**Dixon's Letter of Indorsement.**

Mr. Dixon in a letter to Mr. Barrett said: "I take great pleasure in recommending you for this position (re-nomination to the board of review). I have known you for a number of years and I believe you have demonstrated your fitness for this position. You are a well grounded lawyer and know business and public affairs, and because of your splendid record for ability and fairness I believe you should command the respect and support of all public spirited citizens."

Only four Crowe-Barrett candidates received whole indorsements from the B. G. A.

Three Crowe-Barrett candidates for county commissioner—Charles S. Peterson, Charles L. Gerds, and Louis Net-thehurst—were indorsed, and Municipal Judge Robert E. Gentzel, on the same slate, also was recommended.

**Two Get an Even Break**

Leroy Miller, Crowe-Barrett candidate for county clerk, was coupled with the Deneen candidate, William G. Scherwat, while Criminal Court Clerk John H. Passmore got a break with Chester S. Patrick of the Deneen slate.

Miss Minnie Whitham, whom all G. O. P. organizations indorse for county superintendent of schools, was included. Asa G. Adams and Oscar Thonander, independent candidates for the Municipal bench, were indorsed. For all other offices the B. G. A. recommended the Deneen-Lundin slate, except sheriff, for which it made no recommendation.

**Chief Collins Upholds Street Preaching Plans**

Chief of Police Collins put his stamp of approval yesterday on the plans of sixty pastors of the union ministers' organization to conduct open air preaching services in Chicago this summer. So long as traffic laws are not violated, the chief said, the police will not interfere. "The more religion this city has, the better it will be," Chief Collins said. "The purpose of the meetings is laudable. All necessary permits will be issued."

"Ah, Alice—I'll give Tibby her share."

Mayor Dever wrote a letter to the United States senate refuting some of the charges against the good name and reputation of Chicago, recently made before that body in a communication from the Better Government association of that city.

Mayor Dever's defense recited that the capital the same day was being visited by two gangsters of the murder of two policemen who had attempted to arrest them. And the acquittal was based on the theory that thugs and criminals possess the right, under the law, to kill a policeman if they think he is attempting an unlawful arrest.

The United States senate said nothing about it. The nation's highest law court said nothing about it. The news from the criminal courtroom is convincing.

## FRENCH LOVE FOR EASTER VACATION MAY SAVE BRIAND

Vote Today on Tax Bill;  
Herriot Aids Foe.

BY HENRY WALES.  
(Chicago Tribune Press Service.)  
PARIS, March 3.—With the death of the project designed to balance the budget only twenty-four hours away, France's political bonanza spurred through the preliminary events in the chamber of deputies today. There was no decision. The final vote on the tax bills will come some time tomorrow.

A small riot marred the debate, on which the life of the Briand ministry as well as the good health of the budget is going to depend. Twenty-six communist deputies sprang to their feet and chanted "The Internationale" to welcome the two new communist deputies, Fournier and Du Clos, who were elected in Paris Sunday.

**Back Briand to Win.**  
Deeds and catcalls and hisses broke from the right, the strains of "The Marseillaise" rang out, and the entire assembly soon was a bedlam. President Herriot clapped on his high hat, indicating the session was suspended, and when quiet was restored he admonished the deputies for starting the disturbance. The right deputies immediately protested that the catcalls and jeers came from the visitors' balconies above them. They protested so violently that a short suspension was taken again.

The odds tonight are slightly in favor of Premier Aristide Briand remaining in power, although the situation is highly dangerous. Many of the parliamentarians are afraid a ministerial crisis will intervene to rule the customary Easter vacation, which is a big event in France.

The chances that the legislators would go to the country as usual for their Easter outing were increased when former Premier Herriot issued an appeal to the radicals and radical Socialists to refrain from bringing down the ministry by their votes. He asked them either to vote for the ministry's project or abstain from voting.

M. Briand is using his best brand of diplomacy on two other dangerous points—the Socialists and the right groups. He is working to obtain abstentions from voting, which is the best he can hope for from them.

**9,000,000 Face Their First Tax.**  
M. Peret's civil or poll tax was subjected to the fire of the Socialists and the Communists today. They complained that it strikes foully at 9,000,000 citizens who have never paid direct taxes before. They allege that out of 978,000,000 francs (about \$19,000,000) which the tax is expected to yield, only 178,000,000 francs (about \$3,666,666) will be drawn from the rich.

The Communist deputy, M. Garçery, said that the kernel of the extreme left's opposition was that out of 4,800,000,000 francs (about \$100,000,000) taxes designed to meet the budget deficit only 1,000,000,000 francs (about \$20,000,000) were in direct imposts on capital, while all the remainder is in indirect taxes which the little man pays.

**Fear Immediate Inflation.**  
The chairman of the budget committee, M. Chadenet, opening the debate, said:  
"If this project is not immediately voted, inflation is inevitable. We must safeguard France against the critical dangers of the franc."  
Finance Minister Peret followed, saying he intends to continue the government's policy of aiming to fund the war debts. Not mentioning the United States, M. Peret said:  
"I will continue to negotiate with Great Britain and seek to include a security clause in any agreement reached, protecting France from having to pay more than it receives as reparations from Germany."

**Writes Love Note to a Married Man, Takes Poison**  
Elizabeth Riley, 25, a maid at 1732 North Sawyer avenue, took poison yesterday after writing a farewell note to Ed Friend, 4027 North Paulina street, a married man who is employed by the Fayette Candy company. The note read: "My dear Ed: Am very sorry that our love should come to this, but you know, dear, how I feel about you and that I cannot live without you." Miss Riley was not expected to live.

## HOWELL DECLARES DEBT PACTS AMOUNT TO CANCELLATION

(Chicago Tribune Press Service.)  
Washington D. C., March 3.—(Special.)—The terms of the Italian debt settlement were defended in the senate today by Senator Walter E. Edge (Rep., N. J.) and David A. Reed (Rep., Pa.), after Senator Robert B. Howell (Rep., Neb.) had made a lengthy attack upon all pending debt agreements.

Senator Howell announced that he not only would vote against the Italian settlement but also against those involving other nations. He estimated that on the basis of reduced interest rates and what he regarded as in effect cancellation of principal, there would be a total loss to the United States on agreements with twelve nations owing this country \$7,738,443,000 of approximately \$30,000,000,000.

Senator Reed said he favored the Italian settlement because he regarded it as "fair to the taxpayer of the United States and reasonable to Italy."

**TWO HELD AS SLOGGERS.**  
Evansville police learned yesterday that a man and a woman whose description answered Samuel Lang, 2112 E. 14th street, threw him out of his car in Evansville and then drove off on an under arrest in Columbus, O.

The odds tonight are slightly in favor of Premier Aristide Briand remaining in power, although the situation is highly dangerous. Many of the parliamentarians are afraid a ministerial crisis will intervene to rule the customary Easter vacation, which is a big event in France.

The chances that the legislators would go to the country as usual for their Easter outing were increased when former Premier Herriot issued an appeal to the radicals and radical Socialists to refrain from bringing down the ministry by their votes. ## RIFFS SWING NEW TRIBE FOR WAR AGAINST FRENCH

(Copyright 1926 By The New York Times.)  
TANGHER, March 3.—News of menacing restiveness among the Suss group of tribes, inhabiting the foothills of the Grand Atlas mountains in the southern French zone of Morocco, has reached Tangier from several sources.

The Suss are of white Berber stock, of the same racial origin as the Rifians. Abdel Krim, the Rifian leader, is known to have appealed by letters to local chieftains in the Suss, and according to native sources the Rifians wish to attack the French at the close of the fast of Ramadan in mid April. Assurances that Abdel Krim is still the master of the Rif and is convinced he still has a chance to win the independence of his people were brought to Tangier today by Hans Alexander Langlet, the Stockholm Tidningen correspondent, who has just passed two months in Rif territory in intimate association with Krim and his aide. Krim told him, Langlet said, that even if the war went against him he and his people were prepared to make their way through the Spanish lines near Tetuan, entering and leaving the Rif without being fired on.

**Devoted to Abdel Krim.**  
Abdel Krim, according to the Swedish journalist, is a man of force, education, and culture. He still commands the devotion of the Rifians. He heads the council of tribal chiefs who sometimes evince jealousy of each other, but always remain loyal to Krim.

Their voluntary gifts of money have constituted one of the greatest sources of Krim's revenue for financing the revolt against the French and Spaniards. So far as Mr. Langlet could determine Krim is not receiving monetary assistance outside of the Rif. Krim still has supplies of munitions, cartridges, rifles, field pieces, and shells have fallen into the hands of the Rifians in each large victory. Mr. Langlet would not disclose the Rifian strength in men and guns, but said they had many pieces of artillery.

**Bombard Spanish Fortress.**  
The confirmed rumors that Krim has installed a strong battery at Adjir, commanding the Spanish fortress at Alhucemas bay, and said he had perched the Spanish positions there.

Mr. Langlet said the Spaniards were employing poison gas both in shells and in bombs dropped by airplanes.

**French Hopeful of Peace.**  
(Chicago Tribune Press Service.)  
PARIS, March 3.—Peace in Morocco, both in the French and Spanish zones, may result soon from the pourparlers now going on between representatives of France and Spain and Abdel Krim, the Rifian chieftain, at Tangier, French Morocco. Premier Aristide Briand, War Minister Paul Painlevé, Gen. Steeg, military governor of Morocco, and Marshal Petain held a long council over the peace question today.

THE TRIBUNE is informed that the officials are optimistic over the information brought from Rabat by Gen. Steeg. Marshal Petain has informed the government's peace plan.

## Use Sulphur If Skin Breaks Out

Just the moment you apply Menthosulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist.

This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to very eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. Get a jar of Rowles Menthosulphur at any drug store.

Let a trial of Menthosulphur show what this means to you. Send the coupon for it. Clip it now.

## VILLAGERS FLEE INTO PEKING AS BATTLE LOOMS

Chang's Planes Map Out  
Line of Attack.

BY CHARLES DAILEY.

(Copyright, 1926, By The Chicago Tribune.)  
PEKING, March 30.—The Tientsin correspondent returned tonight from a tour of the environs of the city. Ten divisions and eight brigades of the Kuomintang (national peoples' army) are holding the outskirts. Airplane observations as well as other movements of the allied armies of Chang Tso-lin and Wu Pei-fu, indicate they are preparing to attack. The army evidently considers the slackened evacuation of the Peking area by Marshal Feng Yu-hsiang's troops is due to a decision to make a last stand. About 10,000 villagers entered Peking today. Many more were clamoring for admittance when the gates were closed at sundown.

Powers Allow Police \$500,000.  
Owing to the danger of looting and other disorders, should the Kuomintang be thrown back against the Peking walls, the protocol powers have advanced to Tuan Chi-jui, the provisional president, \$500,000 from the customs funds. This will be used to provide sustenance for the executive's bodyguard and a month's pay for the police, whose pay roll already is seven months in arrears.

This dole is expected to lead these bodies to make an effort to protect the capital against invasion.

Capture White Russians.  
Kuomintang officials assert the willingness of the retreat from Peking is due to the congestion at Nankow pass, but opponents assert it is due to the hope that their peace appeal will be heeded.

Among the captured and wounded brought inside the lines are several White Russians of the brigade forming the vanguard of the army of Gen. Li Ching-lin, ally of Chang Tso-lin.

Fire on Japanese Ship.  
HANKOW, China, March 30.—(AP)—The Japanese steamer Yuenkiang, from Changsha, arrived here today riddled by shot fired by Chinese troops, who were apparently under the impression that the vessel carried military leaders. Eight Chinese were wounded. No foreign passengers were hurt.

GIRLS TERRIFIED  
BY SIX ROBBERS  
WHO GET \$5,300

(Picture on back page.)  
Six masked bandits yesterday held up the Chicago Carton company, 4433 Ogden avenue, and obtained \$5,300 in pay roll money.  
The robbers went among the employees, most of whom were girls, brandishing their weapons. Mrs. Elizabeth Ramsey, 1142 North Lawndale avenue, switchboard operator, was forced to leave her desk, and one of the men pulled out all the plugs.  
Edward Hardymen, the paymaster, and Edward Mulholland, secretary-treasurer, were compelled to stand against the wall with arms uplifted. The bandits seemed to know where the money was, for they went to the vault and took it out forty minutes after the currency had been delivered by an express company.

DRUG CLERK IS HANDY VICTIM.  
Sadore Siskel, clerk in a drug store at 1300 West Division street reported last night that two men robbed him of his watch and \$11.

## MODERN TORTURE SHIP BEARS 680 FRENCH TO EXILE

Jets of Hot Water to  
Quell Felons.

BY HENRY WALES.

(Chicago Tribune Press Service.)

PARIS, March 30.—The prison ship Martinique is leaving the island of St. Martin de Re, near La Rochelle, tonight with a convict cargo of 680 exiles, bound for France's penal colony on Devil's Island, in French Guiana. The Martinique will proceed first to Algiers to take on 340 colonial prisoners.

Although the election program of the left groups included a pledge to abandon the overseas convict colony and measures were adopted in the chamber or deputies last year to suppress the Guiana hell hole, the lack of funds for constructing penitentiaries in France

or Algeria still necessitates the deporting of prisoners or the cluttering up of local jails.

A Converted Rum Ship.

The Martinique is an ordinary rum ship from Trinidad, especially fitted up to carry felon freight. The hold is divided into four steel cages, each occupied by 170 convicts. The only furnishings are hammocks for sleeping.

In the bow of the ship are half a dozen cells for punishing disorderly felons by solitary confinement. These cells are so small the inmates are unable to lie down, and they are pitch dark, without ports or windows for air or light.

Pipes from the steamer's boilers lead to all the cages, so in case of trouble among the convicts, blasts of scalding steam and boiling water are pumped among them, subduing uprisings or fights, but burning the innocent as well as the guilty.

Press Attacks Action.

There is considerable comment in the press because of the shipment of criminals to Guiana after the government's pledges. It is reported that various western hemisphere states have made unofficial representations

to the government to point out that numbers of these convicts escape from Guiana and take refuge in adjacent territory, many of them working their way to the United States.

The French journalist, Albert Londres, has exposed the fearful conditions in the convict colony for Petit Parisien, revealing that the felons are forced to work naked, are not even supplied with shoes, receive no medical attention, and are subjected to terrible cruelties and brutalities.

Most of the convicts sailing tonight on the month's voyage are barefooted, as the shoes sent by the prison authorities are too small and the men now are wearing wooden sabots.

A coroner's jury, which yesterday closed the inquest over the body of Mrs. Sadie Emerling, recommended that the husband, William "Dutch" Emerling, be held to the grand jury for murder if he is found. He had resented the fact that when he was in jail as a safeblower he did not get a bond for his release.

## RICH SAAR AREA GREETSCANADIAN AS NEW RULER

Iron Handed French-  
man to Get Out.

BY SIGRID SCHULTZ.

(Chicago Tribune Press Service.)

BERLIN, March 30.—The Saar valley, the rich mining district of Germany which the Versailles treaty placed under the rule of the league of nations, is celebrating the arrival of its new president from Canada, Maj. George Washington Stephens of Montreal, who is looked upon as a harbinger of better times.

The Frenchman, M. Rault, who ruled the Saar with an iron fist for two years, will relinquish his post to Mr. Stephens in a solemn session tomorrow.

Crises in Saar.

The plants in this one time rich

country are collapsing financially under the strain of a second inflation. Through their German connections they felt the brunt of the inflation in Germany. What was saved from this wreckage was endangered by the new crises fostered by the depreciation of French currency, since the big mines were turned over to the French government as reparations.

"Under these difficult conditions, the Saar pins its hopes on Mr. Stephens, the man from across the ocean, who, with his methods and through his aloofness to Europe's petty strife, will be able to reestablish peace and personal freedom after the Rault régime," an official organ of the Saar district, published in an unoccupied zone, says.

American Loan Impends.

American banking concerns have negotiated for loans for the purchase of the biggest mines in the district, but the final negotiations have been postponed. New York bankers will resume them, if Mr. Stephens succeeds in reestablishing a political and economic peace, which they consider have severely been endangered under the iron régime of the former chairman of the league of nations governing committee of the Saar district, M. Rault.

ADVERTISE IN THE TRIBUNE

## ALDERMEN DIDN'T APPROVE EXPERT FEES, TESTIMONY

Proof Given That There Was No City Contract.

BY PHILIP KINSLEY.

A significant omission in the records of the city council finance committee for 1920 and 1921 was testified to yesterday before Judge Hugo M. Friend by Capt. Frank H. Censfield, assistant chief of staff of the finance committee, in the real estate expert suit brought by THE TRIBUNE.

No reports, he said, for that period from the board of local improvements or from M. J. Faherty showed payments to Ernest H. Lyons, Edward C. Waller, or Arthur S. Merigold, the three defendants, out of the 1920 bond appropriations on the basis of 1 per cent of the value of the property appraised by these gentlemen.

### Other Experts Approved.

Other appropriations to other employees and experts, at specified salaries, were noted in the regular way and permission given for the payments. It was shown. Only the experts with the huge fees were left out, it appears.

"Did Mr. Faherty, in any of his visits to the finance committee staff during 1920, mention or refer to the payments to Waller, Lyons, and Merigold?" Capt. Censfield was asked.

"No, sir."

Q.—Do the minutes of the finance committee for the year 1920 or 1921 show the report to the finance committee by the board of public improvements, or by M. J. Faherty, of any payments made to Waller, Lyons, or Merigold out of the "40-8" appropriations for Ogden avenue, South Water street, Robey street, Ashland avenue, and Western avenue? A.—No, sir.

### Seek to Disprove Contracts.

The purpose of the examination, according to Attorney William Wilson, attorney for THE TRIBUNE, is to show that the finance committee and the city council never approved of these men doing work for the city, as the rule requires. The minutes, he testified, show no

approval of the employment of the experts on a one per cent basis, and no approval of the five year contract which Mr. Faherty claims with these men.

During the same year, it was shown by the minutes, the committee was asked for and authorized the employment of Otto F. Meyers, Charles J. McDonald and Frederick E. Root, as experts on the Michigan avenue improvement. Letters were introduced, signed by Mr. Faherty, addressed to Ald. John A. Richert, then chairman of the finance committee, in which the authority of the council is asked for hiring the second group of experts. Root, a real estate expert, is given \$50 a day.

It has been the contention of Mr. Faherty that he did not need the authority of the council to hire the experts or make a contract with them.

## MEXICO, JAPAN DENY MAGDALENA BAY COLONY YARN

BY J. H. CORNYN.

(Chicago Tribune Press Service.)

Mexico City, March 30.—The minister of agriculture denies that Mexico has given to Japan a concession of a strip of land five miles wide and 100 miles long near Magdalena Bay, Lower California, for the formation of a Japanese colony. He says the only concession of this nature granted was Porfirio Diaz's grant of land to an American citizen, D. J. Hafl of St. Louis, Mo., well known here, and no transfer of that grant has been made.

Mr. Hafl, when interviewed today, confirmed the statement of the department of agriculture, asserting that he and his American partner, J. E. Henry, had no intention of transferring the concession and would not, under any consideration, transfer it to Japan.

It is understood that Ambassador James R. Sheffield has been asked by Washington to investigate the supposed concession.

### Denial by Japan.

(Copyright: 1926: By the New York Times.)

TOKIO, March 30.—The foreign office denies knowledge of any Japanese leasing of Mexican land other than what is contained in press reports received here, but expresses doubt concerning the truth of the report. It says that the Japanese have been given the privilege of leasing agricultural and oil lands in Mexico by the as yet unpublished treaty of amity and commerce, but not near the frontier. The Mexican oil and land laws do not affect the treaty provisions, which are reciprocal.

Regret is expressed at the wide publicity given the story which emphasizes the desire of California Japanese to emigrate into Mexico because of American anti-Japanese legislation.

An official says that if the land really was leased by California Japanese, it was with the intention of colonizing it with colleagues. A similar attempt made in 1912 was discouraged by the government, which recognizes American opposition to oriental colonization in neighboring countries.

## GULF WATER HEARING BE HOUSE OFFI

Barnes Supports Fights Propo

(Chicago Tribune Press Service.)  
Washington, D. C., March 30.—Proponents and opponents of the Illinois waterway connecting Chicago and the Mississippi river by a nine-foot channel staged a battle of words before the house committee on rivers and harbors today.

Rep. William R. Hull, former secretary of war and counsel for the Lake Carriers' association, led the fight against a channel, pleading NEWTON's action on the of a waterway at this time, a water diversion of 1,800 cubic second feet from a lake to the Gulf.

Hull to introduce

Rep. William R. Hull, Representative Newton and M. G. Barnes, chief of the Illinois state division, took the lead in an open channel waterway, not river with a water 10,000 cubic second feet.

Following the hearing, he would introduce a bill to be incorporated in the on and harbor bill which would for an open waterway a diversion of 10,000 cubic second feet of water from the Illinois river to the Gulf. He recommended a waterway designed cubic second feet of water, but not setting figure for permanent flow.

Up to Congress, Say

"This means," said "that the engineers left gross to determine the water to be diverted from the lake to the Gulf. The lake-to-the-Gulf water open channel with a 10,000 cubic second feet of water from 1,000,000 to 100,000 tons alone."

Mr. Baker's testimony a storm of questions. He neither the secretary of green knew what its power matter of granting a wa to a state. For that reason that congress should ho

## GULF WATERWAY HEARING BEFORE HOUSE OFFICIALS

Barnes Supports, Baker Fights Proposal.

(Chicago Tribune Press Service.)  
Washington, D. C., March 30.—[Special.]—Proponents and opponents of a waterway connecting the Illinois river with the Gulf of Mexico were heard before the House committee on rivers and harbors today.

Newton D. Barnes, former secretary of war and counsel for the Lake Carriers' association, led the fight against the bill. He declared Chicago had absolutely no right to a waterway, even going so far as to say that his clients would not be satisfied even if regulating works were constructed which would restore the six inches of water which it is alleged is lost by the water diversion at Chicago. He also asserted that sending the 10,000 cubic second of water down the Mississippi instead of down the St. Lawrence would eventually cause a power loss of \$30,000,000 annually.

"The most important subject before the country today," Mr. Barnes said, "is power. With the exhaustion of petroleum in sight, this country faces a time not far in the future where every pound of power will be vital to the country's existence."

Delay of Hudson Project Advised.  
Recommendation that the all-American waterway connecting Lake Ontario with the Hudson river be not constructed at this time, and that the war department be authorized to make a further study was made by Maj. Gen. Harry Taylor, chief of engineers, in a report to congress today.

Both the engineers and Gen. Taylor agreed that before making a decision on the question of a deep water outlet from the great lakes congress should have an opportunity to study both the New York state route and the proposed St. Lawrence seaway.

"From the economic angle it would seem," Gen. Taylor reported, "that congress should possess full information. The national defense angle, in my opinion, does not have a decisive bearing on this case."

High Maintenance Cost.  
Despite his letter to S. Wallace Dempsey (Rep., N. Y.) urging the all-American waterway for defense reasons, Secretary of War Davis concurred in the conclusion on national defense reached by Gen. Taylor and so notified congress.

In rejecting the canal on economic grounds, the engineers stated that the cost would be \$649,000,000 for a twenty-foot channel and \$832,000,000 for a twenty-five foot waterway.

## SENATORS WANT TARIFF REPORTS GIVEN COOLIDGE

(Chicago Tribune Press Service.)  
Washington, D. C., March 30.—[Special.]—The special senatorial committee investigating the flexible tariff today issued a subpoena directing the secretary of the tariff commission to produce reports submitted to President Coolidge, but which the executive has not authorized to be published.

This action was taken on the demand of Senator La Follette (Rep., Wis.) after Chairman Thomas O. Marvin of the commission had expressed an unwillingness to discuss details of such reports. Mr. Marvin said he had no objection to disclosing all matters contained in the reports, but that the commission considered itself merely the agent of the President in the operation of the flexible tariff.

No publicity is given by the commission to its reports, he said, until after the President has taken action and authorized them to be printed. Mr. Marvin expressed the opinion that a flexible tariff based upon differences in costs of production is difficult, if not impossible, to administer. He recommended changes in the law so as to base changes upon differences in competitive conditions as proposed by the original senate finance committee draft of the law.

UNITED STATES TIRES ARE GOOD TIRES

# A New Kind of ADVERTISING

## Questions and Answers on the American Rubber Supply and Automobile Tires

Tapping a Rubber Tree on a U. S. Rubber Company Plantation

THE U. S. RUBBER COMPANY NOW OWNS OVER 7,000,000 RUBBER TREES—MORE THAN 5,000,000 OF THEM ARE ALREADY PRODUCING RUBBER FOR U. S. TIRES, AND 20,000 EMPLOYEES ARE ENGAGED IN CARING FOR THEM.

Q—Where does America get its rubber?

A—The only important source of rubber for all the world is the rubber plantations in the Far Eastern possessions of Great Britain and Holland.

Q—Is America represented among the Far Eastern rubber plantations?

A—Yes, the largest of all these Far Eastern plantations is owned and operated by the UNITED STATES RUBBER COMPANY.

Q—Do the United States Rubber Plantations produce any considerable quantity of rubber?

A—Yes, they produced 20,000,000 lbs. of rubber in 1925, and in the next few years the output will be increased about 75%.

Q—Then the growing of rubber by Americans for Americans is not a new thing?

A—No. As far back as 1903, the United States Rubber Company formed the conviction that it should own and operate rubber plantations in proportion to its requirements of crude rubber. In 1909, this Company acquired their vast tracts of ideal rubber growing land in Sumatra and Malaya. The jungle was cleared off. Docks, railroads, and motor roads were built, and fine young rubber seedlings were planted, cultivated and brought into bearing.

Q—How large are the U. S. Rubber Plantations today?

A—The United States Rubber Plantations now comprise about 136,000 acres, with over 7,000,000 rubber trees, sixty miles of narrow-gauge railway, and 200 miles of motor roads. They give employment to 20,000 people.

Q—What does all this mean to me as a buyer and user of United States Tires?

A—The United States Rubber Plantations and their results have brought many benefits to every user of U. S. Rubber products of all kinds. For instance:

1. LATEX-TREATED WEB CORD, one of the outstanding major improve-

ments in tire-building, announced by this Company in 1922.

2. SPRAYED RUBBER, the new standard of purity in crude rubber, of direct benefit to every user of any U. S. Rubber product.

3. IN ADDITION, during the past 17 years, the U. S. Rubber Plantations Experts have conducted thousands of successful researches into improving rubber by improving the rubber trees. Their methods of selecting rubber seedlings, of grafting and budding, of preparing the soil, of planting, of fertilizing, cultivating and tending the trees have almost revolutionized rubber growing. The Company's plantations headquarters at Kisanan are recognized as the center of scientific rubber culture, and as such are visited by rubber planters from all over the East.

Q—What is Latex-treated Web Cord?

A—This is new cord structure for cord tires, combining maximum strength with maximum flexibility. QUESTIONS AND ANSWERS ON LATEX-TREATED WEB CORD will be published shortly.

Q—What is Sprayed Rubber?

A—Sprayed Rubber is the new pure rubber. It is free from both acid and smoke. QUESTIONS AND ANSWERS ON SPRAYED RUBBER will also be published at an early date.

Q—Will America ever be reasonably independent in its rubber supply?

A—Probably so, in the course of time. For instance, the U. S. Rubber Plantations will probably yield 15 per cent more rubber in 1926 than in the past year. Every year more rubber trees come into production; and as trees grow older, they yield more abundantly. It takes from 5 to 7 years from the clearing of the ground to bring a rubber plantation into bearing. For several years to come, the U. S. Rubber Plantations will be the only important American-owned source of rubber.

During 1926, the makers of United States Tires will publish what they hope will prove the most helpful series of advertisements on tires ever printed. Conventional advertising forms and statements will be discarded. In their place direct questions such as any motorist might ask about United States Tires will be specifically answered. They will be questions that have passed in and out of your mind, no doubt, ever since you have been a car owner. No one will be able to read this series, either in whole or part, without knowing more about rubber and tires than he ever knew before. Do not miss reading the U. S. TIRE advertisements in newspapers and magazines from now on. They are for the benefit of every car owner, whether he rides on United States Tires or other makes.

## HOUSE DEBATES IMPEACHMENT OF JUDGE ENGLISH

Profanity Brings Censure  
from Longworth.

Washington, D. C., March 30.—[Special.]—Arguments for and against the impeachment of Federal Judge George W. English of the eastern district of Illinois, began in the house today, with indications that a final vote may be taken tomorrow afternoon.

Members of the judiciary committee who recommended impeachment on charges of misbehavior in office predicted tonight their findings would be sustained by the house and that Judge English would be brought before the senate for trial.

In the testimony against him, it was charged that Judge English had used profane and obscene language on the bench—one epithet alleged to have been applied to Illinois state officers being especially repellant. This language was repeated today by some of the speakers against Judge English, but instead of the house hearing the words in calm dignity a number of members sneezed, giggled, and guffawed.

Rules Profanity Out.

Speaker Longworth, whose wife was a gallery spectator, ruled the language out of order.

"It is necessary for the words to be repeated the chair should be advised and he will order the galleries cleared," he warned.

One speech with unexpected features came from Representative Holiday (Rep., Ill.), who spoke for Judge English. An interesting question arose when he started to attack Thomas M. Webb, an attorney disbarred by Judge English. He accused Mr. Webb of improper conduct in former years, but Chairman Graham of the judiciary committee objected to Mr. Holiday going outside the record. Speaker Longworth ruled Mr. Holiday was within his rights.

State Officials Powerless.

One accusation against Judge English was that in August, 1922, he threatened to remove Illinois state officials from office. Mr. Holiday answered this by saying that at the time Illinois was experiencing the East St. Louis strike and that it was necessary for the federal judge to intervene because state officials were powerless.

## LONDON POLICE DROP CURTAIN ON 200 PRETTY LEGS

(Chicago Tribune From Service.)

LONDON, March 30.—About 100 pretty girls, many employed as stage and cinema actresses, received the attention of the police today for showing their legs to advertise silk stockings. Dressed in tan or shanters and merry widow coats, the girls paraded in the fashionable Hyde Park district with signs on their backs reading: "Look at my stockings," causing congestion of sidewalk traffic and making many men regret their myopia. The police invoked the metropolitan street act, providing that any picture, print, or placard must be approved by the police before it is exhibited on the streets.

TWO BLAZES AT GROCERY.

The Watson grocery, 131 East Forty-seventh street, damaged by fire early yesterday morning, was the scene of a small blaze last night. Total damage \$6,000.

A raw throat invites infection.

### Fight the sore throat germs all day long

EVEN a slight rawness in the throat is dangerous. It is a sign that germs are at work. Give it continuous antiseptic treatment. Don't rely merely on a gargle or spray night and morning.

Carry a bottle of Formamint with you and at convenient intervals all day, wherever you happen to be, slip one of the pleasant-tasting, antiseptic tablets into your mouth.

To treat sore throat, take a tablet every hour or so. To prevent infection, take one every two or three hours, when exposed to disease, dust or cold. All druggists.

## A good business proposition Trade a spare room for an extra bathroom

A long narrow hallway, a useless alcove, an idle stair-head, a storage closet, or almost any odd space can be made into a complete additional bathroom.

How much extra convenience and health it will contribute to your family, only those can know who daily suffer the irritating waiting and hurry in a one-bathroom house. Yet an extra bathroom can readily be yours at a surprisingly small cost. And you more than get your money back if you ever sell your home. Or if you rent it, the extra bathroom pays you back by bringing higher rentals.

Today, consult a responsible plumbing contractor. Let him help you plan the arrangement. Then come with him to the Crane Exhibit Rooms. Or come alone. No obligation is even implied.

You will see an interesting range of Crane fixtures of compact design to conserve space, which yet provide full comfort and convenience. The styles are many; and the sizes and prices will surely suggest an extra bathroom to meet your ideas. Free: an illustrated, instructive book of interesting plumbing facts. Write for a copy of "Planning the Small Bathroom."

Clermont lavatory C 750-55 is of lustrous twice-fired vitreous china. Integral back saves wall from splashing. Sanitary syphon jet closet with low tank, C 100-60, assures very quiet operation.

The plan shows how a long narrow hallway, four feet wide by ten feet nine inches, has been transformed into a roomy additional bathroom. The bath is the beautiful Corwith, C 324-L-1, of glistering porcelain on iron, with Aqua-nik curtain shower.

## Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff; for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid Arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning most, if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid Arvon at any drug store. Four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

HOT

HOT

HOT

HOT

No one, whatever his motives, likes to be extravagant with hot water unless it is cheap. And still fewer will use it as they should unless it is convenient.

Yet in any home worthy of the name, someone is bent on being beautiful. And someone else on radiating health. But neither is possible without a copious Niagara of hot water always on tap.

Canvass any ten homes and the families in nine will agree unanimously that a daily bath is the world's greatest luxury. Or a home-spun shampoo executed in the wake of steaming towels. Or a massage when the pore-opening process is not a farce. Or a shave when the temperature of the water is not a drawback.

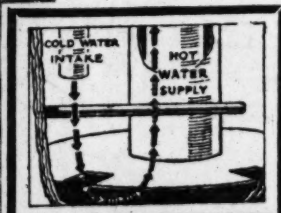

But the life of anyone interested in modern conveniences is geared to a high speed. You want a bath when you want it—not when a fussy coal stove or an antiquated gas heater decides to give it to you. Shaves, massages and other beauty chores belong in odd moments of the day. They are not important enough to disturb other plans. Yet too important to be at the disposal of any mechanical appliance.

Unfortunately when the choice lies between waiting for hot water or doing without a bath, the bath goes by the board. When it is a question of a cold shave or no shave, the beard is worn to the office.

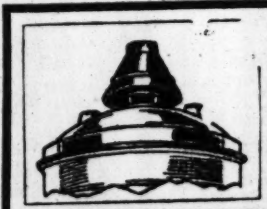

And unless your hot water needs are served by Geneva Storage Heaters, a modern program of

This is the only heater built to observe the 3 BASIC PRINCIPLES of heating water—and,

1 To Heat Water Quickly and Prevent Lining, It Should Be "Percolated." This is the greatest fuel-saving discovery evidenced by any storage heater anywhere. Cold water is "percolated" and drawn off piping hot. Continuous circulation entirely prevents lining. Heats a storage tank quicker than any other known method.

2 All the Heat Should Go to the Water. By a special baffling construction, heat that is ordinarily wasted through the ventilating pipe, in Geneva Heaters goes to heat the water. Striking evidence of gas economy.

3 A Pilot Light Should Do More Than Pilot. Geneva Heaters are constructed with the famous Cleveland Gas Burners known to create the most heat from the least gas. Their unique pilot is used to keep the entire tank at maximum temperature.

only by observing these principles can a heater supply plenty of hot water at the lowest cost possible.

health and beauty culture such as an entire family deserves to indulge in, would be doomed by the first month's gas bill.

There may be a dozen reasons why you want plenty of hot water on tap in your home all the time. But there is only one way to have it.

Since such statements should be proved, try drawing four baths ten minutes apart from any other storage heater. Or washing dishes with water direct from the tap. Then you will realize that of all the storage heaters available, only the one constructed according to the Three Basic Principles of Heating Water can give all the hot water you want at a price you are willing to pay.

If money means anything, you, of course, would not consider suffering the extravagant gas consumption that features the old-fashioned instantaneous type of heater. And if convenience is cherished in your home, nursing a coal stove is a task against which your whole family has rebelled.

It is significant that among the modern storage heaters, the one constructed according to the Three Basic Principles recently was proved to be far more efficient by a test conducted by Prof. G. F. Gebhardt of Armour Institute, Chicago.

In the face of such evidence you are indeed indifferent to convenience and economy unless you choose the Geneva.

For whatever size house you occupy or intend to, there is a Geneva Heater of exactly the right capacity to give you copious quantities of hot water, at all hours, in all parts of the house, at a saving in gas that none should ignore.

### 30 Days' Gas Bill—Free!

Every home deserves a Geneva Heater. When its original cost is less than the average—its fuel efficiency proved to be far greater, no one interested in economy and convenience will refuse this opportunity to have gallons of piping hot water, 24 hours a day, in all parts of the house.

For a very limited time, not more than 14 days, we are offering as a special inducement, to pay your storage heater gas bill for the first 30 days following the installation of a Geneva in your home.

## DIX GRIFFITH A. A. U. S. TOWARD

### Asks Protection College Athletes

Major John L. Griffith, president of the Western Athletic Association, is asking the U. S. Olympic committee to protect college athletes from the influence of the big game.

MAJ. J. L. GRIFFITH

Major Griffith points out that the field and athletic coaches, and practically all of the athletes of the day, are that of the 233 point track and field competition Olympic games all but by college and university athletes.

Competition in Major Griffith's answer to the National A. U. S. follows:

"The ten directors of the Big Ten institute all of the competition for these boys to engage in as they are undergraduates, according to his plan, in the public eye, these athletic directors that the college athletes given enough credit that they should have A. A. U. basketball track meets. In my opinion, this is a matter men to decide, and no one outside organ."

Hands Off of the Western conference did not request Mr. H. Griffith's letter to the West as his letter would indicate that he would request his cooperation that are under the jurisdiction of the A. A. U. to keep college athletes so long as they are college students. Griffith's letter that indicates that the college athletes in their inability to compete under their just Edwards, president of the Football league, might same position, however, man, he recognized the colleges are competing plenty of competition in their undergarments consequently the professional league has passed a resolution that the college athletes in their undergarments are competing in their undergarments who are adverse to the men who achieve college athletic circles."

## GRIFFITH HITS A. A. U. STAND TOWARD BIG 10

### Asks Protection for College Athletes.

Maj. John L. Griffith, athletic commissioner of the Western conference, who returned yesterday from Texas, where he acted in an official capacity at the Texas and Rice relay games, takes exception to the request of Big Ten athletic directors that the Big Ten institutions to have all of the competition that is desirable for these boys to engage in so long as they are undergraduates. Mr. Griffith, according to his letter which appeared in the public press, differs with these athletic directors and believes that the college athletes are not being given enough of the competition that they should receive complete in A. A. U. basketball tournaments and track meets. In his judgment, however, this is a matter for the college men to decide and is not one that concerns any outside organization.

### Hands Off of Schools.

"The Western conference directors did not request Mr. Griffith to ask his athletic clubs not to tamper with college athletes outside the Western conference, as his letter would indicate, but rather did request his cooperation to the extent that he would request the clubs that are under the jurisdiction of the A. A. U. to keep hands off of college athletes so long as they are enrolled as college students. Mr. Griffith suggests in his letter that such a request indicates that the directors of the Western conference are not in control of their own institutions under their jurisdiction." Bill Edwards, president of the Professional Football league, made a statement to the effect that he was in a college position; however, he is a college man, he recognized the fact that the colleges are competent to provide plenty of competition for their athletes in their undergraduate days and consequently the professional football league has passed a rule which forbids any professional league club from signing college students prior to their graduation. This action of Mr. Edwards has been appreciated by the college men throughout the country who are conducting athletics because of their inherent educational values and who are averse to the exploitation of the men who achieve distinction in college athletic circles."

Los Angeles, Cal., March 30.—(Special.)—From now on the Cubs' training program will be confined exclusively to exhibitions and traveling. They put on their final out and out practice here today and the two weeks remaining before the end of the season will be taken up by nine diamond clashes and some protracted train riding that will get them to Cincinnati the night before the National League campaign opens on April 13.

As the last unadulterated workout came to a conclusion this afternoon, Manager Joe McCarthy made a speech. He said: "Well, the look pretty good, and that was a mouthful, considering that the north side boss is not a man given to free and reckless use of language. If silence is golden, he is going to be a millionaire sooner or later."

### Doesn't Mean a Pennant.

In admitting right out loud that the boys looked good, McCarthy didn't wish to convey the impression that the north side is about to look upon a pennant winner. He merely was expressing satisfaction with their physical condition after six weeks of sunbath.

About the only men not ready for hard work are Grover Alexander and Wilbur Cooper. They fell behind the pack because of ailments, but with two weeks to go they will be in the pink to attain what is known as the pink.

### Eyes on Johnny Welch.

About everybody on the squad now has eyes on Johnny Welch, the 19 year old right hander picked up by Scout Doyle at Ottumwa, Iowa, who will not reach his twentieth birthday until next December, but despite his youth can pitch with the calmness and ease of a veteran.

### The concluding act of the exhibition schedule will get under way tomorrow against the Los Angeles team. Blake and Root probably will divide the hurling.

## Cards Figure They Can Win if Pitchers Hold Up

BY JAMES CRUSINBERRY.  
[Chicago Tribune Press Service.]

Dallas, Tex., March 30.—(Special.)—A team of sluggers filled with confidence, spunk, pride, and a feeling that this is to be their big year—that's the St. Louis Cardinals, led by the champion slugger, Rogers Hornsby.

Not since Charles A. Comiskey had the old time champions in the middle eighties have prospects for a pennant in St. Louis been so bright. There is a feeling that the Browns have a team that might come through. It appears that the Cardinals, who have displayed strength for two or three years, have a good staff of pitchers in a dozen years, and it will not be a great staff this season.

"I haven't any feeling of confidence that we are going to win a pennant, but I do believe we have a strong team and by far the best team we have had since I have been playing in St. Louis." On the field here, in the game against the White Sox, the Cardinals displayed an abundance of spirit and pep. The infield is snappy with Bottomley, Hornsby, Thompson, and Lasey.

Bob O'Farrell looks better than ever as a catcher. A big rangy outfielder who has tremendous swatting power, was picked up last fall in Chicago. He will play right field. Blades is secure in left and is as fast as anyone and a strong hitter. Either Douthett or Mueller will be the regular in center. The leaver, Ed Holm, is in the pen in reserve. For infield reserve, there is Torporcer and Flowers. There seems to be nothing lacking on the Cardinal team unless it is strategy and pitching strength.

## Officials Are Selected for A. A. U. Swim

BY WALTER ECKERSALL.  
[Chicago Tribune Press Service.]

John T. Taylor, president of the Allegheny division of the A. A. U., and chairman of the national championship swimming committee, has been appointed referee and starter of the National A. A. U. men's indoor swimming championships to be held in the pools of the I. A. C. and C. A. A. next week, starting on Monday and terminating on Friday.

Taylor has had many years of experience in swimming events and has been chairman of the national championship trials for the last five seasons. He was one of the coaches of the American swimming team which competed in the 1924 Olympic games.

## Hogan Water Polo Official.

The water polo games will be handled by Leo Hogan, formerly of Great Lakes, Mich., who has been years of experience in swimming events and has been chairman of the national championship trials for the last five seasons. He was one of the coaches of the American swimming team which competed in the 1924 Olympic games.

## William G. Howe of the I. A. C. will be chief timer, and Sheldon Clark, chairman of the C. A. A. athletic committee, will be one of the judges.

Other officials will be G. P. Wendell of the Omaha A. C.; Al Downs, N. Y. A. C.; Norman Ross, Detroit A. C.; John Farrington, Philadelphia A. C.; John Hainworth, Buffalo A. C.; Tom Robinson, Northwestern University; E. C. Delaporte, Dr. H. H. Hayes, R. E. Kenyon, Dr. E. F. Swatek, Frank Martin, Paul C. Leober, T. H. Henegar, Avery Brundage, Frank Harless, and Frank Blankley.

## German Swims Coming.

The German swimmers, Erick Rademacher and Gustav Froelich, will positively be in the pool at the end of the week. They were invited to this effect was received by the joint committee of the two clubs yesterday. This committee also voted to grant expense money to Agnes Geraghty and Helen Meany of the Women's Swimming Association of New York to come to the championships for exhibition purposes. The eastern mermals are expected to accept.

A slight change has been made in the original program. The pentathlon, the all-around test of a swimmer, will be held in the C. A. A. pool at noon on Monday instead of on Tuesday.

## COPS HANG K. O. ON LIL' ARTHA'S LIL' CLUB BOUT

### Pinch Jack and His Boxers After First Round.

Everything was all set at Jack Johnson's gymnasium, 424 East 47th street, last night to put on thirty rounds of boxing. The exhibition went just one round.

Promptly at 9 o'clock Johnson, attired in evening clothes, stepped into his eighteen foot arena to announce to the audience of about three hundred, colored and white men, and a few women, that a little work would be put on by some of his pupils.

Speedy Dean, 4749 Calumet avenue, and Tom Duncan, 1956 West Austin avenue, Negroes, stepped into the ring attired in light and wearing 16 ounce gloves. The regulation prize fight gloves are 5 ounces.

### Then the Cops Step In.

The club members saw one good round of fighting for their dollar when they stepped Capt. James Allman and Detective Patrick Gallagher.

"The fights will stop now," said the captain. "You are under arrest, Mr. Johnson, along with the fighters, the seconds, and the timekeeper."

"That's all right, captain," replied Johnson. "This was just an exhibition of some of my pupils to show the club members some of the boxing which I taught them. This is a test case and we'll go to the station."

## SCHAEFER LEADS HOPPE, 1,200-982, IN 18.1 TOURNEY

New York, March 30.—(Special.)—Making an even more sensational pull-up than he did on the opening day, Young Jack Schaefer, challenger, after dropping the afternoon block, rallied in tonight's session and now leads Willie Hoppe, champion, 1,200 to 982, in their 3,000 point world's championship 18.1.

Schaefer, after losing, 215 to 355, in the afternoon, outscored Hoppe, 485 to 322, tonight with the aid of two sensational runs. One of these, that of 132 made in the thirty-sixth inning, was Schaefer's high run of the match.

## Ralph Hogan Elected Hawkeye Cage Captain

Iowa City, Ia., March 30.—(Special.)—Ralph H. Hogan, guard on the 1926 basketball team, tonight was elected to captain the Hawkeye team through the 1927 season. Hogan is a junior and has played only one year on the varsity five.

## Chicago Title and Trust Five Clinches "Y" Title

Chicago Title and Trust basketball team won the championship of the Central Y. M. C. A. league for employed boys by a string of five straight wins, 22 to 14, at the Central Y last night. The winners are undefeated, having won eleven straight games.

## Fight Decisions

Decisions of Tribune boxing representatives are:  
At Philadelphia—Willie Davies beat Marty Gold (10); Young Chaplin beat Young Biggs (10).  
At Toronto—Bucky Graham and California Joe Lynch (10), draw.

## Thrills of Greek Games or 6 Day Race at H. S. Cage Meet

BY MORROW KRUM.  
[Chicago Tribune Press Service.]

Two contradictory comments upon the intercollegiate basketball tournament in progress at the University of Chicago were overheard yesterday. "This is like ancient Greece," said a tall, elderly, and slender professor. "The youth of America, the flower of our young strength, is here playing a game called basketball, but which might have been any sport in the olden Greek times."

It happened that a veteran telegraph operator was standing nearby. "It's like a six day bike race," said he.

Games Go On and On.  
Both were right. You can look at it from either point of view. The best scholastic basketball players in America are racing from noon until 10 o'clock at night over the polished floors of Bartlett gym.

The games go on and on and on. One team rests. Another practices. One game stops. Another begins. There is a full, then a cheer. Suddenly a frenzy of noise—Bobby Walthour might easily be trying to steal a lap. But the last of his home town. And they play on and on, just like the riders in the bike race.

## N. Y. Plans to Smoke Jack Out of Hiding

BY WESTBROOK PEGLER.  
[Chicago Tribune Press Service.]

New York, March 30.—(Special.)—An 48 hour flurry is now in progress here to bring the world's record in the world movement to provide Jack Dempsey with another million dollars and a few incidental swipes on his home grown potato.

These furries used to last only 12 hours, at the end of which time Harry Greb would kick a friend in the garden and the leaders of the world movement would be temporarily diverted.

This movement has now become a complex, however, with many politicians, mysterious millionaire button-hook magnates, semi-professional beat friends of Jack Dempsey, and other more or less pertinent miscellany to be interviewed that it is impossible to conduct an unabridged flurry in less than 48 hours.

## Richard Uses Old Ballyhoo.

These interviews were progressing nicely this afternoon. The New York boxing commission was interviewed at 3 o'clock and nothing of importance was stated at great length. Tex Rickard was interviewed at 4 o'clock.

"Sure, I'd like to promote a fight between Dempsey and Tunney or Dempsey and Willie or Tunney and Willie," Mr. Rickard began, as usual.

"Yes," said the interviewers, "and you may have something important to announce in a few days. Is that the one?"

"That's the one," said Mr. Rickard. "Just to Standard Second Day Dempsey Flurry Statement. That covers it."

## May Rule Jack Obsolete.

The boxing commission's statement followed the regular form, intimating that if Jack Dempsey did not fight Harry Willie he would be declared an ex-champion. As a novel touch, Chairman James Farley suggested that if Dempsey were declared obsolete the commission might command a fight between Willie and Tunney, the winner to be recognized as champion by the New York commission. Inasmuch as the commission also forbids Dempsey to fight Willie, the situation is still as complex as ever.

As a parenthetical development the

## Budd Doble, Once Famous Trotting Race Driver, Dies

Puerto, Cal., March 30.—Budd Doble, 55, formerly of Chicago, was a pioneer of the harness turf, died at the home of his daughter, Mrs. Joseph F. May, here last night.

"If he had been more than 30 years since Doble was engaged in harness racing, but during his day he was one of the most noted reinmen in America."

He came into prominence in 1877, when he drove Dexter to a world's championship. The time was 2:17. He drove to another world's mark in 1874, when he sent Golden Maid a mile in 2:14. Then in 1892 he caused harness race followers to gasp when he drove Nancy Hanks to still another world's record in 2:04.

Doble's first wife was a daughter of the famous E. J. "Lucky" Baldwin. He belonged to the same school of drivers as the late Edward L. (Pop) Geers and was a lifelong friend of that great driver, who was killed two years ago.

Commission let it be known that Tunney's New York boxing license expired on March 15, and that he will not be given a new one without an argument, because he ran out of a fight with Jack Sharkey of Boston last fall.

## Richard Pays Safe.

Dempsey apparently intends to box Tunney for Richard late in August, after his contract with Jack Kearns has expired. However, in the meantime, Richard is doing business with both Kearns and Dempsey, realizing that Kearns is still Dempsey's manager by law and entitled to a percentage of Dempsey's money.

Richard says he intends to go to Chicago again about one week hence to resume the arrangements for his Chicago branch of the garden.

## FINDS INSURANCE, NATIONAL WEAL GO HAND IN HAND

BY HARPER LEECH.

Profits are the result of risks. As Foster and Catchings have shown so conclusively, the trend of a modern industrial society is always to lessen the range of both profits and losses. One of the great instruments of such stabilization is, first, accurate statistics, and then insurance based on that actuarial knowledge.

Insurance absorbs risks and therefore flattens out the chances for profit or loss. Yet in a modern national economy risk can never be eliminated as long as consumers have freedom of choice, so that the advance of insurance in business, or the broadening of speculative markets, with their opportunities for hedging, will never entirely remove the profit motive from business nor deprive us of that driving force—the primary force of our civilization—the force without which our motives, scientific, artistic, philanthropic, even the desire for peace, would have little effect because unable to operate effectively for lack of material instruments and wealth.

Insurance then is one form of socialization which we can view with confidence. It is a self-sustaining force, reason why the progress of insurance has been so rapid is that in this country the people have done for themselves what other nations have done for them. Insurance men believe that half of all Americans are now insured. There is no way to tell exactly from the number of policies more than one can figure the number of automobiles covered by the registration, because many men own two cars and the number of those who carry more than one policy is relatively great.

## Sitting for Portrait Still Popular Even in These Changing Times

BY NANCY R.

Times and customs change with startling swiftness. It's a comfort to find something that's still in fashion after years and years of popularity. Having one's portrait painted is as much in vogue as it ever was, and the belles and beaux of today who sit to skilled painters expect to take their places in the ancestral gallery, just as did their parents and grandparents and great-grandparents, who were the belles and beaux of yesterday. Collars and cravats, frills and furberles, waistlines and shoulder lines, hair cuts and coiffures may vary, but the desire to be put on canvas remains.

One of our prettiest young women, Mrs. John Christie Caldwell, has recently returned to Chicago after a long visit in New York. She went east for the late winter festivities in town and for winter sports in Maine, but she didn't devote all her moments merely to having a good time—the proof being that she's even now awaiting the arrival of a charming portrait of herself done while she was there by Leslie Emmet. Leslie Emmet, you know, is the sister of Lydia Field Emmet and of the Emmet—two talented and delightful artists as Gotham boasts.

### Day's News in Society

The Rummage Shop issued another of its clever little rhyming invitations yesterday for a tea on April 6 to be at Mrs. Jacob Bauer's of 1511 Astor street. Assisting at the tea table will be Mrs. P. A. Valente, Mrs. Warren Salisbury, Mrs. Augustus S. Peabody, Mrs. Alvin C. McCord, Mrs. James Douglas, and Mrs. Thomas Marston. Assisting to receive will be Mrs. Harry Shannon, Mrs. A. K. Maxwell, Mrs. Samuel T. Chase, Mrs. D. Mark Cummings, Mrs. Charles LeForge, Mrs. Oscar Johnson, and Mrs. George Hallock Taylor.

Mr. and Mrs. Hiram Foster are to give a studio party this evening at Giro's Grill for Beatrice Lillie (Lady Peel), Gertrude Lawrence, and Jack Buchanan, inasmuch as the Opera club is omitting its mid-week dance in Holy week.

Plans will be laid for the annual cabaret supper dance of the Chicago Light House for the Blind at a luncheon meeting of the committee tomorrow at 12:30 at the Arts club. Mr. Harold Strodt of 49 Scott street is in charge of reservations.

The Arts club announces its annual exhibition by professional members on Friday afternoon from 4 to 6 o'clock. Mrs. Frederick T. West is to head the receiving line for the Lower North Community council dance at the Casino on April 9. The others are Mrs. Joseph T. Ryerson, Mrs. Bruce Boland, Mrs. John W. Root, Princess Michel Cantacuzene, and Mrs. William McCormick Blair.

Mr. and Mrs. Charles H. Morse of 50 Scott street announce the engagement of their daughter, Martha, to Carl B. Stibolt, son of Mrs. Albert J. Stibolt of Davenport, Ia. The wedding probably will take place some time this summer.

Miss Sarane Otis is to accompany Mr. and Mrs. Arthur Lincoln Farwell of 1201 Ritchie court and their daughter, Miss Elinor Farwell, when they sail on April 10 for Europe. The party will join Miss Catherine Norcross in Rome.

Mr. and Mrs. Alexander H. Revel gave a dinner in Augusta, Ga., Saturday evening for Benjamin H. Marshall and Mr. and Mrs. Harold Richardson.

Mrs. G. F. M. Ennis of Cape Town, South Africa, spent the week-end in Lake Forest with her sister, Mrs. V. L. Channing Sanborn, and is en route to La Jolla, Cal., where she will visit another sister, Miss Caroline Kirkland, for ten days.

Chicago for a short time on her return to New York City to sail on the Mauretania.

Mrs. Mary Bellville Dickinson of the Churchill and her daughter, Miss Rose Dickinson, have returned from a stay of several weeks at Pass Christian, Miss.

Mr. and Mrs. McCalland Barclay are to depart today for Atlanta, Ga., where they will join some friends for a ten day motor trip through Florida.

Mrs. James H. Channon of the Ambassador hotel has with her for the Easter holiday her daughter, Mary Letitia Channon, who attends Warren County school at Warren, Tenn.

### Do This Daily

A naturally beautiful complexion will come as your reward

By NORMA TALMADGE

This is the simple rule beauty experts urge

GAINING a clear and charming complexion today no longer involves long and costly beauty treatments. Modern skin care strives for natural loveliness, effected in a natural and simple way—a way any woman can follow without expense or bother.

The simple rule below has brought the reward of a naturally clear skin to more women than any other method known.

Try it, if only for one week. Note the improvement that comes. The world's accepted beauty method today is simply the balmy olive and palm lather of Palmolive Soap used in this way:

THE RULE—MAKE IT YOURS STARTING TODAY

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave them on overnight. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. Your skin will be washed away. Follow these rules day in and day out. Your skin will be soft and lovely—naturally colorful and clear.

Do not use ordinary soaps in the treatment given above. Do not think

any green soap, or represented as of palm and olive oils, is the same. Remember that before Palmolive came, women were told, "use no soap on your faces." Soaps then were judged too harsh. Palmolive is a beauty soap made for one purpose only: to safeguard your complexion. 60 years of soap study stand behind it. Millions of pretty skins prove its effectiveness beyond doubt.

BE SURE YOU GET THE REAL PALMOLIVE

It costs but 10c the cake!—so little that millions let it for their bodies what it does for their faces. Obtain Palmolive today. Note what one week of its use brings you. The Palmolive Company (Del. Corp.), Chicago, Illinois.

## Heart, Not Money, Spells Real Kind of Philanthropist

BY DORIS BLAKE.

If you had more millions than you knew how to spend, what would be your pet philanthropy? "Mine would be homes," says "A Reader." "But not homes for the aged or infirm—homes for young married couples. I have often thought if I ever got into the philanthropic millionaire class, I'd start an endowment fund for helping young married couples over the rough spots of those first and second years of married life, when real troubles come."

"Take a boy and a girl and a cozy little nest. Add a cunning, healthy baby and there is nothing happier on God's green footstool. But, instead of a healthy babe, fill in a fretful, sickly infant, a wan, tired, worried little mother, a worried, dejected father and there is nothing more pitiful."

"A nurse for a month, a few weeks at the shore or mountains, a lift on that heavy doctor's bill—any one of these things would spell heaven to that tiny family. But do they get it? Not often! And the reason? Because they belong to that great middle class which has to bear its burdens without charity or pity."

What magnanimous creatures we'd all be if we had the other fellow's millions to spend! Myself, I've squandered a number of fortunes that I never laid hands on, playing Lady Bountiful all over the land, with what smug and desplicable satisfaction I did not realize until the other day I heard of a seamstress with a child of 10 years taking to rear a helplessly crippled little boy, bound to her only by ties of a step-relationship. Some one asked the woman why she had assumed such a burden. "He'd have to go to an orphan asylum if I didn't take him," she answered.

Last summer a certain young woman planned a vacation on the coast. An unfortunate young man in the same employ was caught short in his accounts. The amount was not large, happily. Several hundred dollars was the sum. The girl knew he had had hard luck since the day he married. His wife was in the hospital at the time with a second baby.

To this day that young man does not know who left the envelope for him with \$50 in it—enough to make good the shortage. It was the girl's vacation money.

So isn't the millions that make the philanthropist, is it?

## Her Coat May Be Tiny, but It's Surely Chic

by Corinne Lowe

NEW YORK.—[Special Correspondence.]—Her balloon may possibly escape that jealous grasp, but fashion is firmly attached to this distinctive miss of today's drawing. For she is wearing a matching coat and hat of French creation worked out with that combination of original detail and simple effect for which the Parisian designer of juvenile modes is justly celebrated.

The coat is in soft folds of rose cashmere and it is trimmed with black kasha. This sounds gullest, but the whole contribution to style is made by the manner in which the black is applied. It is all notched about the edges and so, too, are the deep cuffs. Only the collar with its bow of either black or bolds of rose ribbon is left plain. As to the lining, this is a dotted crepe which embraces all of three colors.

The French are especially addicted to that pleasant mode of matching the small miss' hat with her coat. And so here you find a little hat of bolds of rose felt trimmed with the same scalloped band of black cashmere and adorned at the side by a cascade of bolds of rose ribbon.

The coat, designed for the child of from 2 to 5, is one which may be copied at home without losing any of its native charm. All sorts of novelty tweeds and wools are appearing for the spring wrap of the young miss. Quite a few of these are finished with a cape and are quite tailored in effect. To this group belongs a charming Copenhagen blue-and-white tweed which I saw the other day and which made me long to be a child again, just for that day.

Note—Clotilde patterns are made in New York exclusively for The Chicago Daily Tribune. They are perfect in fit, up to date in style, and the easiest of all patterns to use.

EMBARRASSING MOMENTS

The Tribune will pay \$1 for every letter published on "The Most Embarrassing Moments of My Life." Address Embarrassing Moments, Chicago Tribune, with one side of the paper. No manuscript returned.

Her Own Coincidence.

My most embarrassing moment occurred one afternoon when I was riding on a crowded bus. I sat near a window holding a dime in one hand and a small flat, cough drop in the other. When the conductor asked for my fare, without turning, I began to insert what I supposed to be the dime, whereupon the conductor said politely, "Well, madam, are you trying to 'cough' me?" No wonder he thought so, for I had tried to pay my fare with a cough drop.

Showering the Neighbors.

I took my 3 year old son to a cafeteria one day. For his lunch he chose a bottle of milk. In trying to take the cap off he became impatient and vigorously rammed his finger down on it.

The embarrassing result was that the man and woman seated opposite us were showered with milk. I apologized, but our neighbors were disgusted and showed it plainly all during the meal, which made me anything but comfortable.

## CITY TEACHERS' BOOKS BARRED IN CHICAGO SYSTEM

Trustee Coath Upheld by Attorney Righimer.

Chicago school teachers and principals are practically prohibited from writing text books for the Chicago school system unless they waive all of their royalty rights in Illinois, according to an opinion handed to the school administration committee yesterday by Frank S. Righimer, attorney for the board of education.

As a result, the committee recommended that the mathematics text book written jointly by Joseph F. Gonnely, district superintendent in charge of junior high schools, and Miss Grace Huff, a teacher in the Lane Technical High school, be dropped as a Chicago text book.

Assignment Called Subterfuge. Both Mr. Gonnely and Miss Huff refused to say to whom they had assigned their royalty rights in Illinois. The opinion held such assignment was a subterfuge to come within the letter of the law, and that unless they waived all rights the book was being illegally used in the schools. The decision is likely to affect the use of text books written during the last twenty years by members of the system.

The investigation into the Gonnely-Huff book was brought about by Trustee J. Lewis Coath, who charged that it was unethical for any one in Mr. Gonnely's position to offer a text book to the system.

Richimer Cites the Law. "The law is aimed at the use of official position, directly or indirectly, for the purpose of securing a possible advantage to one in such a position," said Mr. Righimer in his opinion. "In the past teachers have assigned their royalties to relatives or friends to come within the law, notifying the board at the time. The opinion held such action to be illegal."

The committee concurred in Supt. MacAndrew's nomination of Jacob H. Hanch, principal of the Lloyd school, for a district superintendency.

## OFFICIALS HONOR FRANCIS P. BRADY AT RITES TODAY

Funeral services for Francis P. Brady, clerk of the Appellate court, who died Sunday, will be held this morning at 10 o'clock in St. John's church, 18th and Clark streets. A motorcade will lead the cortege from the home, 2231 Calumet avenue, to the church and the cemetery.

The following were named yesterday as pallbearers: United States Senator Charles S. Deneen, Congressman Martin B. Madden, Gov. Len Small, Mayor Dewey, State's Attorney Robert E. Crowe, George F. Harding, William Hale Thompson, Roy O. West, Thomas Healy, Fred Lundin, Percy Coffin, Dr. John Dill Robertson, Louis J. Behan, Justice Charles Evans Collins, Michael Kenna, Ald. John J. Coughlin, Michael Igo, John Kelly, George W. Dixon, James Ahearn, John P. Harding, State Senator Richard Barry, Judge Marcus Kavanagh, Jesse Holcomb, John M. O'Connor, Charles M. Thompson, Thomas Taylor, William H. McCurely, David P. Matthei, Frank Johnson, Albert C. Barry, Martin Gridley, and Joseph H. Fitch.

## FARM AND GARDEN BY FRANK RIDGWAY

Artificial manure is declared a fake by investigators at the state agricultural experiment station at Columbia, Mo. All over America gardeners and farmers had heard this winter of the great mixture that transforms straw stacks and huge piles of leaves into rich plant food within a short time, but now the bubble has been broken just as growers in this country were getting ready to take their hats off to the British experimenters.

The patent mixture of English origin and purported to be highly efficient in making artificial fertilizer from straw, leaves and other vegetable refuse is being tested at the Missouri station, where it has been found of little or no value.

The station reports say that to date this patent mixture does not have the rotting of the vegetable materials, but with no greater facility than is possible by some of the older methods of composting. The investigators say that, in addition, the cost is greater than the plant food that the mixture, together with the compost material, supplies, and for the same outlay the gardener and farmer can buy more than the equivalent in ordinary commercial fertilizers, and use them with less waste, and, likely, with equal or better results.

## Hold Funeral Today for Richard T. Forbes, Banker

Funeral services for Richard T. Forbes, vice president of the Continental and Commercial national bank, will be held at 2 p. m. today in St. Paul's Episcopal church, 50th street and Dorchester avenue. Mr. Forbes died Saturday evening at his home, 5601 Woodlawn avenue. He was 60 years old. A motorcade will lead the cortege from the home, 2231 Calumet avenue, to the church and the cemetery.

The following were named yesterday as pallbearers: United States Senator Charles S. Deneen, Congressman Martin B. Madden, Gov. Len Small, Mayor Dewey, State's Attorney Robert E. Crowe, George F. Harding, William Hale Thompson, Roy O. West, Thomas Healy, Fred Lundin, Percy Coffin, Dr. John Dill Robertson, Louis J. Behan, Justice Charles Evans Collins, Michael Kenna, Ald. John J. ## Oscar Eckland Funeral Will Be Held Tomorrow

Funeral services for Oscar W. Eckland, member of the board of local improvements and south side Democratic leader, will be held tomorrow afternoon at the home, 1015 East 53rd street. Mr. Eckland died Monday of pneumonia following an operation. Mayor Dever and other city officials yesterday joined in tributes to the long public service of Mr. Eckland. It is expected that a large group of officials and business men will attend the funeral.

## James M. Adsit, Realty Dealer, Taken by Death

James M. Adsit, real estate dealer, died yesterday at St. Luke's hospital. He had been living at the Ambassador hotel, where his brother, Charles C. Adsit, also resided. Another sister, Miss Carrie Adsit, was killed by an automobile four years ago. Mr. Adsit's father, James Adsit, was the first banker in Chicago. No funeral arrangements were announced.

## Last Rites Tomorrow for Mrs. Sara Mason Heatt

Funeral services for Mrs. Sara Mason Heatt, wife of Daniel B. Heatt, veteran postoffice employe who died Saturday at her home, 408 South Prospect avenue, Park Ridge, will be held tomorrow at 2:30 in the Methodist Episcopal church of Park Ridge. Interment will be at Rosehill cemetery. Mrs. Heatt was an old time Chicagoan whose ancestors for five generations were born in the United States.

## JOHN M. CAMERON, LEADER IN OIL BUSINESS, DIES

John M. Cameron, for many years an oil refiner in the mid-continent field, died in St. Louis Monday of influenza.

Mr. Cameron built and operated for years the first independent refinery in the mid-continent field to ship refined oils and gasoline in tank cars and had a wide experience in producing, refining and marketing petroleum. It has been said he could get more out of a barrel of crude oil than any man in the industry. He had made extensive researches and improvements in perfecting efficient refining processes.

Mr. Cameron organized and for the last ten years operated the Cameron Refining Company of Oklahoma, of which company he was president at the time of his death.

The widow, two sons, John M. Jr. and Oscar, and a daughter, Alice Elizabeth, survive. He is survived also by his brother, Ossian, a lawyer of Chicago, the Rev. A. E. Cameron of Albion, Mich., and Dr. Solon Cameron of St. Louis, and sisters, Mrs. Edgar E. Strother of Shanghai, China, and Minnie M. and Annie Belle Cameron of St. Louis.

# City Buried by Snowstorm Which Impedes Traffic—Robber Killed by Clerk, Who Is Himself Wounded

**CHICAGO GETS TOUCH OF BLIZZARD WHICH SWEEPS OVER MOST OF THE UNITED STATES.** Traffic was seriously interfered with by the heavy snowfall and employment was given to hundreds of men out of work. The picture shows some of them at work cleaning streets at State and Randolph streets.  
(Story on page 1.)

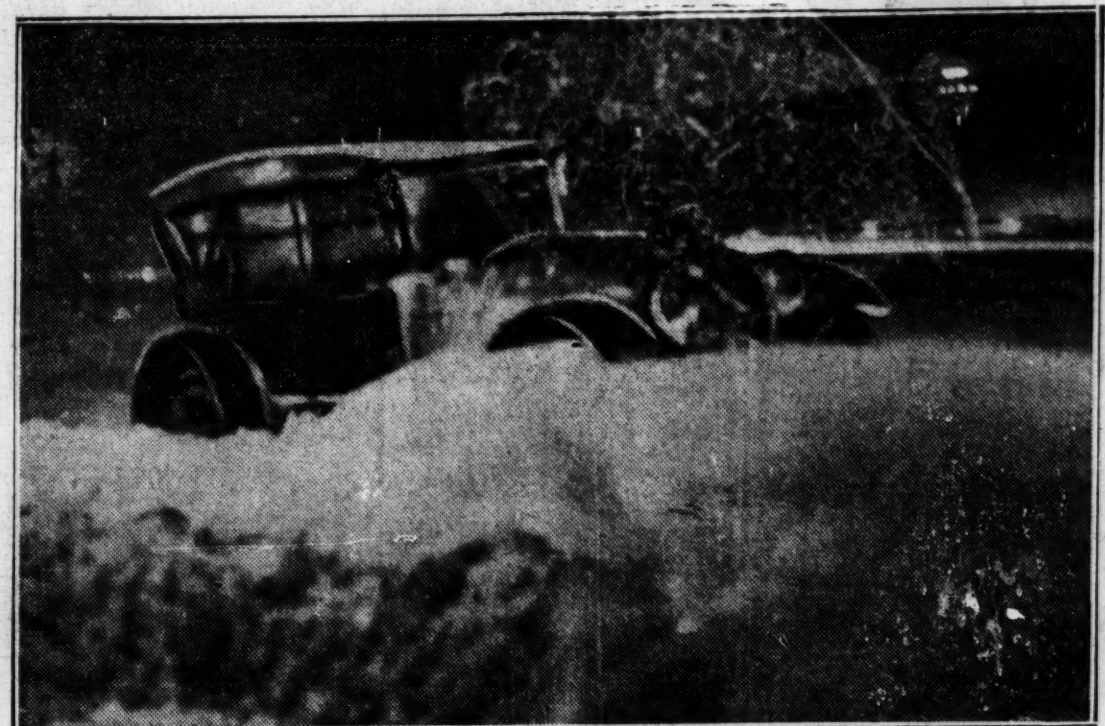

**ROBBER KILLED.** John Becker, slain when he tried to rob store at 1113 South Halsted street.  
(Story on page 1.)

**CLERK WHO KILLED BANDIT CONGRATULATED.** Capt. Dan Lynch of Maxwell street station (left) shaking hands with Sidney Silverman, who was himself wounded.  
(Story on page 1.)

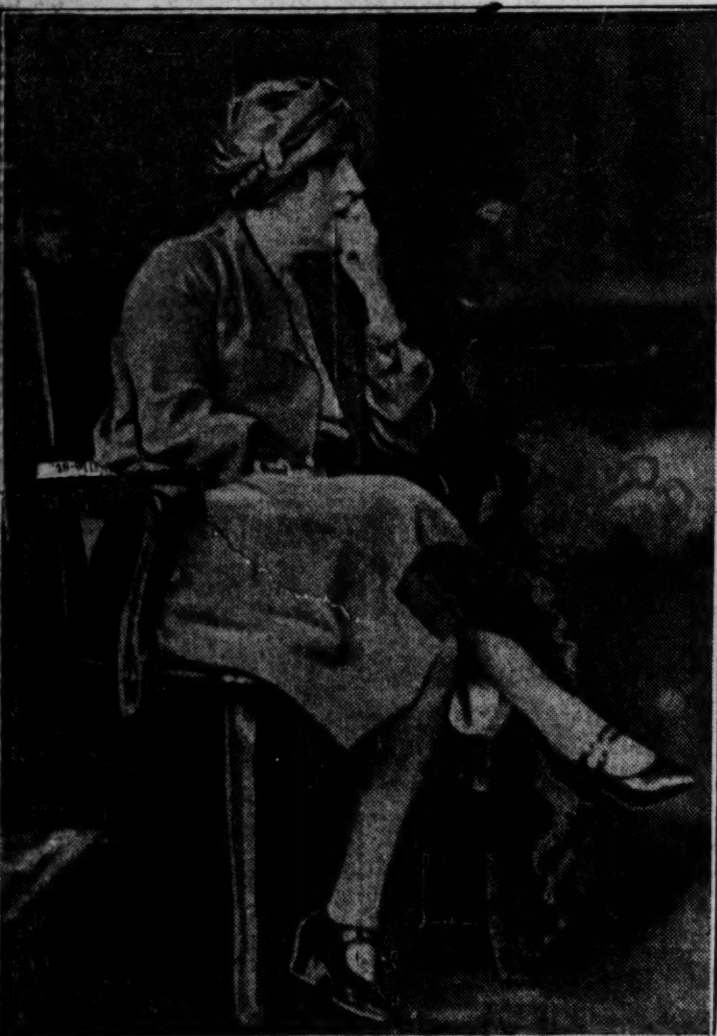

**SHOT DURING FIGHT.** Guy Schiola, who was wounded in battle between clerk and robber.  
(Story on page 1.)

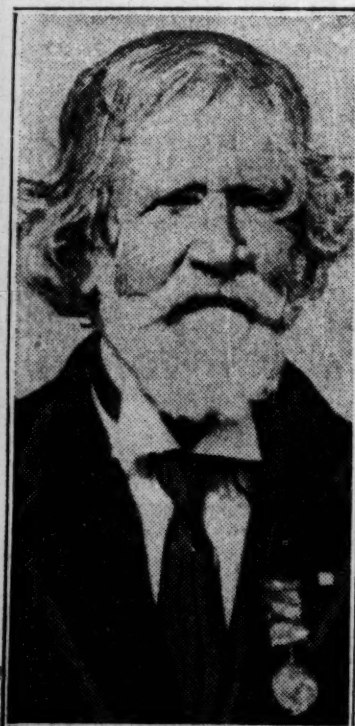

**SCORES OF AUTOS STALLED IN HEAVY SNOW DURING STORM.** Typical scene along the outer drive in Grant park, where the wind had full sweep and the drifts were high. This particular car was buried in the snow near the Field museum.  
(Story on page 1.)

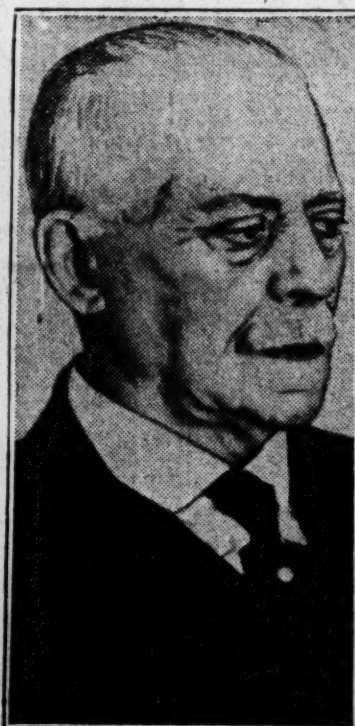

**FILES CROSSBILL.** Mrs. Estelle Scott Hill denies husband's charges.  
(Story on page 15.)

**MARGARET WILSON REFUSES TO PROSECUTE BOYS.** Daughter of late President in New York court declining to testify against youths who robbed her.  
(Pacific and Atlantic Photo.)

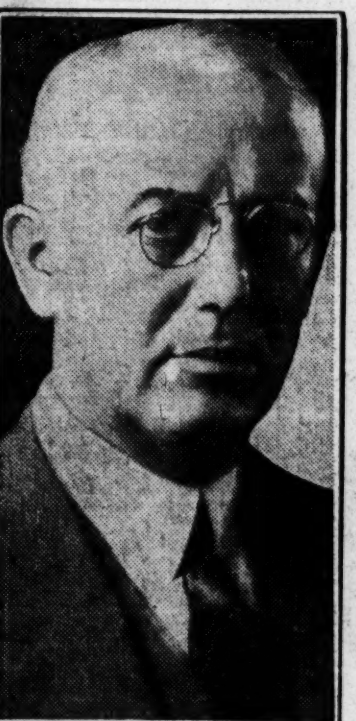

**ARRESTED AS HORSE THIEF AFTER 45 YEARS.** Dr. E. Turner Osbaldeston of Asbury Park, N. J., under arrest (left), and Deputy Sheriff S. Foster Black, 86, who seized him.  
(Pacific and Atlantic Photo.)

**RENOMINATED.** Senator Richard P. Ernst of Kentucky wins in G. O. P. convention.  
(Story on page 5.)

**HAS SECOND SON—** Mrs. Charlie Chaplin becomes mother of seven pound boy.  
(Pacific and Atlantic Photo.)
